TITLE AND APPLICABLE OMB CONTROL NUMBER: DoD Survey of Recruit Socioeconomic Status (SES), OMB Control Number 0704-0293.

NEEDS AND USES: This survey collects socioeconomic background information from a representative sample of new recruits to the active-duty military. It provides annual data that are descriptive of the military composition as a whole. The data are included in an annual report to Congress on population representation in the U.S. military. The data will be used by members of Congress and DoD policy makers in the debate over the relative merits of voluntary accession and alternative means of recruitment.

Affected Public: Individuals or households.

Annual Burden Hours: 3,340.

Number of Respondents: 20,000.

Responses per Respondent: 1.

Average Burden per Response: 10 minutes.

Frequency: Other: during sample days each year.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

In response to Congressional interest in the background of Service members, the Office of the Under Secretary of Defense (Personnel and Readiness) collects data on the socioeconomic background of new recruits. Since 1989, data have been collected on the occupational and educational background of recruits' parents in order to provide an index of socioeconomic status. The socioeconomic status questionnaire is administered routinely at recruit training centers.

Key questions pertaining to socioeconomic status are matched to questions in the Census Bureau's Current Population Survey. Each year, data from new recruits are compared to data on comparable civilians, and findings are incorporated into an annual report to Congress on population representation in the military. Results are used by the Office of the Under Secretary of Defense (Personnel and Readiness) in an annual report to Congress on the sociodemographic representation of new recruits. The report also is used to respond to inquiries from Congress, the media, and members of the public on social representation in the U.S. Armed Services.
