Evaluation Review and Criteria

A first tier review for completeness will occur at the appropriate DOE Regional Support Office. Applications found to be complete will undergo a merit review process by panels comprised of members representing the respective participating end-use sector programs in DOE's Office of Energy Efficiency and Renewable Energy. A decision as to the applications selected for funding will then be made by the Deputy Assistant Secretary for Building Technology, State and Community Programs, or designee, based on the findings of the technical merit review and any stated program policy factors. DOE reserves the right to fund, in whole or in part, any, all, or none of the applications submitted in response to this notice.
