BILLING CODE 7590-01-P

[Docket Nos. 50-325 and 50-324]

**Carolina Power & Light Company;  
Notice of Withdrawal of Application for  
Amendment to Facility Operating  
License**

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Carolina Power & Light Company (the licensee) to withdraw its December 29, 1992, application for proposed amendment to Facility Operating License Nos. DPR-71 and DPR-62 for the Brunswick Steam Electric Plant, Units 1 and 2, located in Brunswick County, North Carolina.

The proposed amendment would have revised the Type A test acceptance criterion for the as found containment integration leakage rate from 0.75 La to 1.0 La (and 0.75 Lt to 1.0 Lt) that represents the maximum allowable containment leakage rate.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the Federal Register on June 23, 1993, (58 FR 34070). However, by letter dated January 30, 1995, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated December 29, 1992, and the licensee's letter dated January 30, 1995, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the University of North Carolina at Wilmington, William Madison Randall Library, 601 S. College Road, Wilmington, North Carolina 28403-3297.

Dated at Rockville, Maryland, this 16th day of May 1996.

For the Nuclear Regulatory Commission.

Brenda L. Mozafari,

*Project Manager, Project Directorate II-1,  
Division of Reactor Projects—I/II, Office of  
Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

[Docket No. 030-03368; License No. 46-02645-03; EA 96-004]

**Department of the Army, Madigan  
Army Medical Center, Tacoma,  
Washington; Order Imposing Civil  
Monetary Penalty**

I

Madigan Army Medical Center (MAMC, Licensee) is the holder of NRC Materials License No. 46-02645-03, first issued by the Atomic Energy Commission on May 12, 1960. The Nuclear Regulatory Commission (NRC or Commission) issued its first license amendment to MAMC on May 26, 1977. The license authorizes the Licensee to possess byproduct material of various types and to use such material in implementing a nuclear medicine program in accordance with the conditions specified therein.

II

An inspection and investigation of the Licensee's activities were conducted June 6 through December 21, 1995, following the Licensee's report of medical misadministrations that were discovered in June 1995. The results of the inspection and investigation, documented in a report issued on January 5, 1996, NRC Inspection Report No. 030-03368/95-01 and Investigation Report 4-95-027, indicated that the Licensee had not conducted its activities in full compliance with NRC requirements. A predecisional enforcement conference was conducted on January 18, 1996, at the Licensee's facility. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) in the amount of \$8,000 was served upon the Licensee by letter dated February 22, 1996. The Notice described the nature of the violations, the provisions of the NRC's requirements that the Licensee had violated, and the amount of the civil penalty proposed for the violations.

The Licensee responded to the Notice in two letters both dated March 21, 1996 (Reply to a Notice of Violation and Answer to a Notice of Violation). In its responses, the Licensee admitted the violations but requested mitigation of the proposed civil penalty based on actions taken by the Madigan Army

Medical Center (MAMC) to identify and correct the violations.

III

After consideration of the Licensee's response and the statements of fact, explanation, and argument for mitigation contained therein, the NRC staff has determined, as set forth in the Appendix to this Order, that the violations occurred as described in the Notice, and that the penalty proposed for the violations should be imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, *it is hereby ordered* that:

The Licensee pay a civil penalty in the amount of \$8,000 within 30 days of the date of this Order, by check, draft, money order, or electronic transfer, payable to the Treasurer of the United States and mailed to James Lieberman, Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738.

V

The Licensee may request a hearing within 30 days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made in writing to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and include a statement of good cause for the extension. A request for a hearing should be clearly marked as a "Request for an Enforcement Hearing" and shall be addressed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, with a copy to the Commission's Document Control Desk, Washington, D.C. 20555. Copies also shall be sent to the Assistant General Counsel for Hearings and Enforcement at the same address and to the Regional Administrator, NRC Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011.

If a hearing is requested, the Commission will issue an Order designating the time and place of the hearing. If the Licensee fails to request a hearing within 30 days of the date of this Order (or if written approval of an extension of time in which to request a hearing has not been granted), the provisions of this Order shall be effective without further proceedings. If payment has not been made by that
