

or to acquire or control voting securities or assets of a company that engages either directly or through a subsidiary or other company, in a nonbanking activity that is listed in § 225.25 of Regulation Y (12 CFR 225.25) or that the Board has determined by Order to be closely related to banking and permissible for bank holding companies. Unless otherwise noted, these activities will be conducted throughout the United States.

Each notice is available for inspection at the Federal Reserve Bank indicated. Once the notice has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether the proposal complies with the standards of section 4 of the BHC Act, including whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices" (12 U.S.C. 1843). Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 12, 1996.

## Centers for Disease Control and Prevention

[Announcement 647]

### National Institute for Occupational Safety and Health; Centers for Agricultural Disease and Injury Research, Education, and Prevention

#### Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1996 funds for a cooperative agreement program with universities or university-affiliated medical centers for the establishment of Centers for Agricultural Disease and Injury Research, Education, and Prevention. CDC is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Occupational Safety and Health. (For ordering a copy of Healthy People 2000, see the Section **WHERE TO OBTAIN ADDITIONAL INFORMATION.**)

#### Authority

This program is authorized under Sections 20(a) and 22(e)(7) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669 (a) and 671(e)(7)).

#### Smoke-Free Workplace

CDC strongly encourages all grant recipients to provide a smoke-free workplace and to promote the nonuse of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care,

and early childhood development services are provided to children.

#### Eligible Applicants

Eligible applicants include State and private universities and university-affiliated, not-for-profit medical centers within the United States (U.S.). The restriction of eligible applicants is due to the FY 1990 appropriations language which initiated this program and states that centers for agricultural occupational safety and health will be established at universities. Because of programmatic and regional differences throughout agriculture in the U.S., only one center will be established in any Department of Health and Human Services (DHHS) region. (Those Regions and their States are: Region I: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont; Region II: New Jersey, New York, Puerto Rico, and the Virgin Islands; Region III: Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, and West Virginia; Region IV: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee; Region V: Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin; Region VI: Arkansas, Louisiana, New Mexico, Oklahoma, and Texas; Region VII: Iowa, Kansas, Missouri, and Nebraska; Region VIII: Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming; Region IX: American Samoa, Arizona, California, Guam, Hawaii, Nevada, Trust Territory, Wake Islands, and North Mariana Island; and Region X: Alaska, Idaho, Oregon, and Washington.) Currently, there is a Center in DHHS Region VI, which includes the States of Arkansas, Louisiana, New Mexico, Oklahoma, and Texas. Therefore, the regional emphasis for this announcement includes all DHHS Regions, with the exception of Region VI.

#### Availability of Funds

Approximately \$4,300,000 will be available in FY 1996 to fund up to seven additional Agricultural Centers. It is expected that the average award will be approximately \$500,000. It is expected that the awards will begin on or about September 30, 1996, and will be made for 12-month budget periods within project periods of 3 to 5 years. Funding estimates may vary and are subject to change.

Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

Grant applications should be focused on the research priorities described in

the section "FUNDING PRIORITIES" that includes new research priorities developed in a process which resulted in defining a National Occupational Research Agenda. Grant proposals in these areas will compete for the available funds as noted in the previous paragraph, as well as for funds announced through Requests for Applications that are anticipated in FY 1996 and FY 1997.

#### Purpose

This cooperative agreement program will significantly strengthen the occupational and public health infrastructure by building on past Agricultural Center accomplishments aimed at integrating resources for occupational safety and health research and public health prevention programs at the State and local levels. It is designed to address the research, education, and intervention activities that are unique to agriculture in the Region. To achieve this objective, the program will establish Centers for agricultural disease and injury research, education, and prevention. The program objectives are as follows:

1. Develop and conduct research related to the prevention of occupational disease and injury of agricultural workers and their families.
2. Develop and implement model educational, outreach, and intervention programs promoting health and safety for agricultural workers and their families.
3. Develop and evaluate control technologies to prevent illness and injuries among agricultural workers and their families.
4. Develop and implement model programs for the prevention of illness and injury among agricultural workers and their families.
5. Evaluate agricultural injury and disease prevention and educational materials and programs implemented by the Center.
6. Provide consultation and/or training to researchers, health and safety professionals, graduate/professional students, and agricultural extension agents and others in a position to improve the health and safety of agricultural workers.
7. Develop linkages and communication with other governmental and non-governmental bodies involved in agricultural health and safety with special emphasis on communications with other CDC/NIOSH sponsored agricultural health and safety programs.
