National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from the Vicinity of Victorville, CA in the Possession of the Los Angeles County Museum of Natural History, Los Angeles, CA

AGENCY: National Park Service.
ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003 (d), of the completion of an inventory of human remains and associated funerary objects in the possession of the Los Angeles County Museum of Natural History, Los Angeles, CA.

A detailed assessment of the human remains was made by the Los Angeles County Museum of Natural History, Los Angeles, CA professional staff in consultation with representatives of the San Manuel Band of Mission Indians.

In 1928, human remains representing four individuals, including three adults and one infant, were excavated by Arthur Woodward, a member of the museum staff. No known individuals were identified. The three associated funerary objects include three strings of olivella shell disk beads.

Accession documentation describes the remains and associated funerary objects as, "Material from the ranch of J.C. Turner, in sandy Mohave Riverbed 12 miles north of Victorville. Combination village and burial site." The human remains and associated funerary objects are dated to A.D. 1690-1770, based on the presence of incised olivella wall beads. A representative of the San Manuel Band of Mission Indians has confirmed that the Turner Ranch site lies within traditional Serrano lands and is an historic Serrano village.

Based on the above mentioned information, officials of the Los Angeles County Museum of Natural History have

determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of four individuals of Native American ancestry. Officials of the Los Angeles County Museum of Natural History have also determined that, pursuant to 25 U.S.C. 3001 (3)(A), that the three strings of olivella beads listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the Los Angeles County Museum of Natural History have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and associated funerary objects and the San Manuel Band of Mission Indians.

This notice has been sent to officials of the San Manuel Band of Mission Indians. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Dr. Margaret Ann Hardin, Curator and Section Head, Anthropology, the Los Angeles County Museum of Natural History, 900 Exposition Blvd., Los Angeles, CA; telephone: (213) 744-3382, before [thirty days after publication in the Federal Register]. Repatriation of the human remains and associated funerary objects to the San Manuel Band of Mission Indians may begin after that date if no additional claimants come forward.
