

withdrawals/transfers from one unemployment fund to another. For example, except as otherwise permitted by the Cash Management Improvement Act, any drawdown from the UTF not needed for the immediate payment of UC (or other use authorized by Federal law) is inconsistent with the withdrawal standard. Similarly, a transfer from the clearing account (except as otherwise permitted under Federal law) to any account other than the UTF is inconsistent with the withdrawal standard.

6. *Action Required.* State agency administrators are requested to review existing State law provisions and State procedures to ensure that Federal law requirements as set forth in this UIPL are met. Prompt action, including corrective legislation, should be taken to assure Federal requirements are met.

7. *Inquiries.* Direct questions to your Regional Office.

BILLING CODE 4510-30-M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Meeting of the Humanities Panel

AGENCY: National Endowment for the Humanities.

ACTION: Notice of meeting.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, as amended), notice is hereby given that the following meeting of the Humanities Panel will be held at the Old Post Office, 1100 Pennsylvania Avenue, N.W., Washington, D.C. 20506.

FOR FURTHER INFORMATION CONTACT: Sharon I. Block, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, D.C. 20506; telephone (202) 606-8322. Hearing-impaired individuals are advised that information on this matter may be obtained by contacting the Endowment's TDD terminal on (202) 606-8282.

SUPPLEMENTARY INFORMATION: The proposed meeting is for the purpose of panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by the grant applicants. Because the proposed meeting will consider information that is likely to disclose: (1) Trade secrets and commercial or financial information

obtained from a person and privileged or confidential; or (2) information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee meetings, dated July 19, 1993, I have determined that this meeting will be closed to the public pursuant to subsections (c)(4), and (6) of section 552b of title 5, United States Code.

1. *Date:* June 4, 1996.

Time: 8:30 a.m. to 5:00 p.m.

Room: 317.

Program: This meeting will review applications for Teaching with Technology and Other Development and Demonstration Projects in History submitted to the Division of Research and Education Program, for projects at the October 1, 1996 deadline.

2. *Date:* June 5, 1996.

Time: 8:30 a.m. to 5:00 p.m.

Room: 317.

Program: This meeting will review applications for Teaching with Technology and Other Development and Demonstration Projects in Archaeology, Anthropology, and Western Language submitted to the Division of Research and Education Program, for projects at the October 1, 1996 deadline.

3. *Date:* June 6, 1996.

Time: 8:30 a.m. to 5:00 p.m.

Room: 317.

Program: This meeting will review applications for the Teaching with Technology and Other Development and Demonstration Projects in Interdisciplinary K-16 submitted to the Division of Research and Education Program, for projects at the October 1, 1996 deadline.

4. *Date:* June 28, 1996.

Time: 8:30 a.m. to 6:00 p.m.

Room: 415.

Program: This meeting will review applications for the Challenge Grants Program submitted to the Office of Challenge Grants, for projects at the May 1, 1996 deadline.

Michael S. Shapiro,

Acting Advisory Committee Management Officer.

BILLING CODE 7536-01-M

NATIONAL SCIENCE FOUNDATION

Notice of Permits Issued Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permits issued under the Antarctic Conservation of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permits issued under the Antarctic Conservation Act of 1978. This is the required notice.

FOR FURTHER INFORMATION CONTACT: Nadene G. Kennedy, Permit Office, of Polar Programs, Rm. 755, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.

SUPPLEMENTARY INFORMATION: On April 15, 1996, the National Science Foundation published a notice in the Federal Register of permit applications received. Permits were issued on May 23, 1996 to the following applicants:

Ron Koger, Permit #97-001.

David F. Parmelee, Permit #97-003.

Nadene G. Kennedy,

Permit Office.

BILLING CODE 7555-01-M

Notice of Availability of the Environmental Assessment: Wastewater Treatment Plant at McMurdo Station, Antarctica

AGENCY: National Science Foundation.

SUMMARY: The National Science Foundation's research support facility at McMurdo Station, Antarctica currently disposes of sanitary wastes by maceration and discharge through an outfall pipe into the receiving waters of McMurdo Sound. The National Science Foundation is considering the construction and operation of a wastewater treatment facility at McMurdo Station, Antarctica and is seeking comment from interested citizens. An environmental assessment, Wastewater Treatment Plant at McMurdo Station, Antarctica, is available for review and comment.

DATES: Comments regarding the environmental assessment, Wastewater Treatment Plant at McMurdo Station, Antarctica, will be of most use to the planning team if they are received by June 28, 1996.

ADDRESSES: Written comments should be submitted to: Robert S. Cunningham, Office of Polar Programs, Room 755, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.

FOR FURTHER INFORMATION CONTACT: Robert S. Cunningham or Joyce Jatko at the Office of Polar Programs, National Science Foundation TEL: (703) 306-1033, FAX: (703) 306-0139, EMAIL: rcunning@nsf.gov or jjatko@nsf.gov.

SUPPLEMENTARY INFORMATION: The environmental assessment specifically addresses those physical, biological, and social environmental factors and considerations that either affect or are affected by the construction and operation of a wastewater treatment facility at McMurdo Station, Antarctica. Three alternatives are considered: continuation of current practices; extension of the wastewater outfall pipe into McMurdo Sound; and construction and operation of a wastewater treatment facility. In the third alternative, primary, secondary, and tertiary wastewater treatment is considered along with disinfection of wastewater and sludge storage and disposal. The environmental effects of each alternative are compared among alternatives. A preferred alternative is not identified.

Dated: May 22, 1996.

Carol A. Roberts,

*Deputy Director, Office of Polar Programs,
National Science Foundation.*

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. Type of submission, new, revision, or extension: Revision.
2. The title of the information collection: "Codes and Standards for Nuclear Power Plants; Subsection IWE and Subsection IWL."
3. The form number if applicable: Not applicable.
4. How often the collection is required: The American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code) requires that inspection results be submitted to the regulatory and enforcement authorities having jurisdiction at the plant site. The final rule has eliminated the requirement to submit those reports to the NRC. Instead, the records are to be retained by the licensee to be made available to the

NRC in the event of an NRC audit. However, if an examination reveals degradation to the extent that the structural integrity of the containment could be affected, a report must be submitted to the NRC. A one-time notification of commitment to the containment inservice inspection program would be submitted prior to implementation.

5. Who will be required or asked to report: Nuclear power plant licensees.

6. An estimate of the number of responses: Each of the 109 nuclear power plant licensees will be required to develop a containment inservice inspection (ISI) program in accordance with the ASME Code requirements, and submit a notification of commitment to the program within five years from the effective date of the rule (one-time submittal). Once the program has been implemented, and all licensees have performed the expedited containment ISI, subsequent containment ISI would be performed in accordance with the regularly scheduled ISI of each 10-year ISI interval. Approximately 12 licensees a year would be performing containment ISI and documenting the results. It is estimated that four of those licensees will detect containment degradation that will require them to report to the NRC the extent of degradation and corrective actions.

7. The estimated number of annual respondents: Once the containment ISI program plan has been implemented, the number of annual respondents is estimated to be four.

8. An estimate of the total number of hours needed annually to complete the requirement or request: 116,554 hours over the first four years, of which 109,000 hours is a one-time implementation burden; and a recurring burden thereafter of 9,768 hours (814 hours for each of 12 licensees).

9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: Applicable.

10. Abstract: The Nuclear Regulatory Commission (NRC) is amending its regulations to incorporate by reference the 1992 Edition with the 1992 Addenda of Subsection IWE, "Requirements for Class MC and Metallic Liners of Class CC Components of Light-Water Cooled Power Plants," and Subsection IWL, "Requirements for Class CC Concrete Components of Light-Water Cooled Power Plants," of Section XI, Division 1, of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code) with specified modifications and a limitation. Subsection IWE of the ASME Code provides rules for inservice inspection, repair, and replacement of Class MC

pressure retaining components and their integral attachments and of metallic shell and penetration liners of Class CC pressure retaining components and their integral attachments in light-water cooled power plants. Subsection IWL of the ASME Code provides rules for inservice inspection and repair of the reinforced concrete and the post-tensioning systems of Class CC components. Provisions have been included to prevent unnecessary duplication of examinations between the expedited examination and the routine 120-month ISI examinations. Subsection IWE and Subsection IWL have not been previously incorporated by reference into the NRC regulations. This final amendment will specify requirements to assure that the critical areas of containments are routinely inspected to detect defects that could compromise a containment's pressure-retaining integrity.

Submit, by July 1, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street NW., (lower level), Washington, DC. Members of the public who are in the Washington, DC, area can access this document via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library), NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608. Additional assistance in locating the document is available from the NRC Public Document Room, nationally at 1-800-397-4209, or within the Washington, DC, area at 202-634-3273.

Comments and questions should be directed to the OMB reviewer by July 1, 1996: Peter Francis, Office of Information and Regulatory Affairs
