

will identify for SCCP's Operations Department which specific accounts are currently inactive. Thereafter, the Operations Department will monitor on a daily basis purchase and sale blotters for each Inactive Account. Trade activity detected from Inactive Accounts will be compiled on a separate report identifying cumulative activity in each Inactive Account during a monthly billing cycle.³

In the event that an Inactive Account exceeds ten trades, but fewer than twenty-one trades, for a particular month, the Operations Department will immediately notify the F&A Department and SCCP's compliance officer. The F&A Department will verify this activity and will immediately call and send letters to the affected participants requiring the wiring of the additional participants fund contributions associated with an active account by the next business day in order for such participants to conduct further account activity during the month. If a participant has exceeded 20 trades for any given month, the participant must wire additional participants fund contributions associated with an active account by the next business day. A participant's failure to timely wire any additional participants fund contributions due subjects the participant to a \$500 fine for the first offense and a \$2,000 fine for the second offense during a calendar year. If the participant does not wire the additional participants fund contribution for SCCP by the next business day, SCCP will disallow any further business in the account beginning on the next business day after the additional contribution was due. Accordingly, an offense as contemplated by the foregoing fine schedule refers to the number of times that the account was inactivated from conducting any further business for failure to furnish SCCP with the additional contribution during the calendar year.

Once active, an account will be routinely subject to the normal review and update process on a monthly basis, and the F&A Department will recalculate each participant's participants fund deposit requirement at the end of each month based upon the participant's previous three months activity, prior to the most recent month.

SCCP believes the proposed rule change is consistent with Section 17A of the Act and the rules and regulations thereunder because the proposal should help to safeguard securities and funds in

their custody or control or for which they are responsible and foster cooperation and coordination with persons engaged in the clearance and settlement of securities transactions.

(B) Self-Regulatory Organization's Statement on Burden on Competition

SCCP believes that the proposed rule change will not impose any burden on competition not contemplated within the parameters of the Act.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments relating to the proposed rule change have been received. SCCP will notify the Commission of any written comments received by SCCP.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within thirty-five days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which SCCP consents, the Commission will:

- (a) By order approve such proposed rule change or
- (b) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 450 Fifth Street, N.W., Washington, D.C. 20549.
