

Treatment alternatives for this option will include: wetlands application followed by land application (spray irrigation) of the effluent; wetlands application followed by disinfection and surface water discharge; and wetlands application followed by subsurface discharge.

Other Alternatives Presented in the PEIS

The following project alternatives were identified in feasibility studies conducted for the LaGrange County Sewer District and analyzed in this PEIS. Even though they are creditable technical alternatives, they were not selected as the preferred alternative.

Continued Use of On-Site Waste Disposal Systems (No Action Alternative): This alternative would not address the present public health concerns or the continued degradation of the County's surface and ground water.

Centralized Wastewater Collection and Treatment for all County Residents Using Conventional Wastewater Treatment: This alternative would provide wastewater collection and treatment service for all county residents. This option would use either gravity, or pressure sewers to convey wastewater to a centralized facility. Collection and conveyance alternatives that were analyzed for this option include: small diameter gravity systems; small diameter pressure systems using single connection effluent grinder pumps; and conventional gravity collector lines connected to pressure lines for conveyance to the treatment facility. Activated sludge process alternatives that were considered for this option included: oxidation ditches, and extended aeration.

Centralized Wastewater Collection and Treatment for All County Residents Except for Residents in Remote Locations Using Conventional Activated Sludge Waste Treatment Processes: This alternative involves providing water waste collection and treatment services for all of the County's residents except those located in isolated regions. This option would use the same collection and treatment technologies as the option providing wastewater treatment for the entire County. Cost savings over serving the entire county would be realized because of the high unit cost of serving remote residences.

DEPARTMENT OF COMMERCE

Submission For OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.

Title: Survey of Environmental Products and Services.

Form Number(s): EPS-1(M), 2(M), 3(M), 1(S), 1(C).

Agency Approval Number: None.

Type of Request: New collection.

Burden: 20,000 hours.

Number of Respondents: 10,000.

Avg Hours Per Response: 2 hours.

Needs and Uses: Currently, there are no reliable data on the output and export of goods and services that control, reduce, and remediate pollution. Representatives of industry, state governments, and environmental organizations have called for the development of these data as they are critical to the implementation of the Environmental Technologies Exports Initiative, the Environmental Technology Initiative, the Clean Air Act, the Clean Water Act and other environmental statutes. Further, a study is necessary to meet the requirements of the 1990 Clean Air Act Amendment, the Exports Enhancement Act of 1988 and the Jobs Through Trade Expansion Act of 1988. The Census Bureau plans to conduct, on a test basis, a survey of manufacturing and service establishments to collect total value of shipments of goods and revenues for services in 1995 defined for environmental use. The survey will also ask for value of shipments and revenues for services which were exported. The survey will provide information on the size and scope of activity generated from environmental protection. The survey will also provide a benchmark measure of the extent of the environmental industry, its export potential, and the implication for employment in a potential growth industry. Government classification specialists will use the information to determine how industry and product classification systems can be refined and modified to improve the identification of products and services

considered for environmental use. Changes and modifications to detailed classifications will be introduced with the 1997 Economic Censuses. We expect to revise the survey for future data collections to incorporate improvements learned from this test.

Affected Public: Businesses or other for-profit.

Frequency: One-time test.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Jerry Coffey, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, Acting DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce, room 5312, 14th and Constitution Avenue, NW, Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Jerry Coffey, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: May 24, 1996.

Linda Engelmeier,

Acting Departmental Forms Clearance Officer, Office of Management and Organization.

BILLING CODE 3510-07-F

Bureau of the Census

Annual Survey of State and Local Government Finance

ACTION: Proposed agency information collection activity; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before July 30, 1996.

ADDRESSES: Direct all written comments to Linda Engelmeier, Acting Departmental Forms Clearance Officer, Department of Commerce, Room 5327, 14th and Constitution Avenue NW., Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Henry S. Wulf, Bureau of

the Census, Governments Division, Washington, DC 20233-6800, (301)-457-1523.

SUPPLEMENTARY INFORMATION:

I. Abstract

This annual survey provides state government finance data and estimates of local government revenue, expenditure, debt and assets by type of local government, nationally and within state areas. The data are used to calculate the gross domestic product (GDP), to monitor the government sector of the economy, and to formulate, develop, and review public policy.

The revenue category subdivides into the three parts of general revenue, utility and liquor store revenue and insurance trust revenue. Examples of general revenue are taxes, monies from other governments, non-utility charges and interest earnings. Utility charges and investment earnings are examples of other types of government income.

The statistics show expenditure classified by character and object (current operations, capital outlay, etc.) and by function (education, highways, police, welfare, and sanitation, for example). The indebtedness data include all long- and short-term (less than one year) credit obligations incurred in the name of government. Asset information—dominated generally by pension system assets—includes only cash and securities of governments, but excludes any other type of asset such as real property or fixed assets.

Included within this review request are the Forms F-5, F-5a, F-5L1, and F-5L2 from the Annual Survey of State Tax Collections. This survey was approved separately in the past under the OMB number 0067-0046. We are combining these two collections because the tax portion of the data will no longer be released separately. Although the data will be collected in the same manner by the Forms F-5 and F-5a, the data collected will be included as part of the annual survey releases.

II. Method of Collection

Canvass methodology consists of a questionnaire mailout/mail-back. Responses will be screened manually, then entered on a microcomputer. Other methods used to collect data and maximize response include central data collection, solicitation of printed reports in lieu of a completed questionnaire, and use of the Census Bureau's Federal Single Audit Clearinghouse.

III. Data

OMB Number: 0607-0585 (Forms F-5, F-5A, F-5L1, F-5-L2 were

previously cleared under the OMB Number 0607-0046).

Form Number: F-5, F-5A, F-5L1, F-5-L2, F-11, F-12, F-13, F-21, F-22, F-25, F-28, F-29, F-32, F-42.

Type of Review: Regular.

Affected Public: State, local or tribal government.

Estimated Number of Respondents: 7,425.

Estimated Time Per Response: 2.8 hours.

Estimated Total Annual Burden Hours: 22,798 hours.

Estimated Total Annual Cost: The estimated cost to the respondents is \$303,213.00. The estimated cost to the Federal Government is contained in the Surveys of Government Finance. In total, these cost about \$3.2 million during FY 1996.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: May 28, 1996.

Acting Departmental Forms Clearance Officer, Office of Management and Organization.
