Purpose of Program: The Research and Demonstration Projects (R&D) Program supports discrete research, demonstration, training, and related projects to develop methods, procedures, and technology that maximize the full inclusion and integration into society, independent living, employment, family support, and economic and social self-sufficiency of individuals with disabilities, especially those with the most severe disabilities.

Eligible Applicants: Parties eligible to apply for grants under this program are public and private nonprofit and for-profit agencies and organizations, including institutions of higher education and Indian tribes and tribal organizations.

Deadline for Transmittal of Applications: July 15, 1996.

Application Available: June 3, 1996.

Available Funds: \$250,000.

Estimated Average Size of Award per Year: \$250,000.

Estimated Number of Awards: 1.

Project Period: 36 months.

Applicable Regulations: (a) The Education Department General

Administrative Regulations (EDGAR), 34 CFR Parts 74, 75, 77, 80, 81, 82, 85, 86; and (b) the regulations for this program in 34 CFR Parts 350 and 351.

Note: The estimate of funding level and awards in this notice do not bind the Department of Education to a specific level of funding or number of grants.

This notice supports the National Education Goal that calls for all Americans to possess the knowledge and skills necessary to compete in a global economy and exercise the rights and responsibilities of citizenship.

Priorities

Under 34 CFR 75.105(b)(2) (v) and (c)(3) and Section 204(a) of the Rehabilitation Act of 1973, as amended, the Secretary gives an absolute preference to applications that meet the following priority. The Secretary funds under this competition only applications that meet the absolute priority:

Absolute Priority—Unserved or Underserved Populations

Research, demonstration, training, and related projects that hold promise of increasing knowledge and improving the rehabilitation of individuals, particularly those with the most severe disabilities and those who are members of populations that are unserved or underserved by programs under the Rehabilitation Act.

Invitational Priority

Within the absolute priority, the Secretary is particularly interested in applications that address the following invitational priority. However, under 34 CFR 75.105(c)(1) an application that meets an invitational priority does not receive competitive or absolute preference over other applications:

NIDRR has observed that while women constitute most of the disability population, little information or quantitative data is available relative to circumstances and needs of women with disabilities. The information that does exist suggests that women with disabilities in America confront problems that differ in important respects from those of their nondisabled female peers as well as those of men with disabilities. While NIDRR currently supports projects to address the needs of other underserved populations such as persons with disabilities from minority backgrounds and American Indian individuals with disabilities, NIDRR does not currently support a focused research effort to address critical issues unique to women with disabilities.

In 1995, NIDRR convened a focus group of women with disabilities, service providers, and researchers to discuss research gaps and opportunities. The following topics emerged as critical areas to disabled women: economic and employment status; prevalence of violence and abuse; access to appropriate health care; and opportunities for disabled girls and young women to develop independence and leadership skills. The Secretary invites applications to undertake research projects that address these topics, including the identification of intervention strategies that can be addressed through research.

Research projects might propose to address one or more of the following research needs: analysis of the income status of disabled women; documentation of employment status and identification of employment barriers; design and testing of leadership development models; and an analysis of the existing data about violence and abuse toward women with disabilities.

The Secretary is also interested in supporting projects that study the need for and feasibility of a comprehensive research effort on the unique problems of women with disabilities, and develop an agenda for future research.
