#### Agency Information Collection Activities: Proposed Collection; Comment Request

**ACTION:** Notice and request for comments.

**SUMMARY:** The Federal Emergency Management Agency (FEMA), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed new, revised, or continuing information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning the proposed extension of an existing information collection, which expires June 30, 1996.

*Title.* Make Your Mark on the Floodplain—High Water Mark Form.  
*Type of Information Collection.* Extension.

*OMB Number:* 3067-0268

*FEMA Form Title.* High Water Mark.

*Abstract.* The Make Your Mark on the Floodplain handout and accompanying High Water Mark form is used to establish uniform and consistent methodologies for setting and recovering high water marks following a significant flood event. After a major flood, anyone who has high water marks on their property or observed flood marks on public property can use the form to record high water mark information, including location, measurements, and description of the marks read. The data will be used by FEMA in post-flood damage assessments since the data will define a frequency/damage relationship for the flooding event and provide calibration information for future analysis. The U.S. Army Corps of Engineers will assist FEMA in collecting and compiling high water mark data.

*Affected Public.* Individuals and households, business or other for profit, Non-profit institutions, Farms, and State, local or tribal governments.

*Number of Respondents.* 7,500.

*Estimated Total Annual Burden Hours.* 2,500.

*Estimated Time Per Response.* 20 minutes.

**COMMENTS:** Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

#### Agency Information Collection Activities: Submission for OMB Review; Comment Request

**ACTION:** Notice and request for comments.

**SUMMARY:** The Federal Emergency Management Agency has submitted the following proposed collection of information to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3507).

**SUPPLEMENTARY INFORMATION:** The National Flood Insurance Program regulations require the elevation or floodproofing of newly constructed structures in designated special flood hazard areas. As part of the agreement for making flood insurance available in a community, the NFIP requires the community to adopt a floodplain management ordinance containing

certain minimum requirements intended to reduce future flood losses. One such requirement is that the community obtain the elevation of the lowest flood (including basement) of all new and substantially improved structures, and maintain a record of all such information. These data may be generated and retained as part of the community's permit issuance and building inspection processes. The Elevation Certificate is one convenient way for a community to comply with this requirement. The Floodproofing Certificate may similarly be used to establish the required record in those instances when floodproofing for non-residential structures is a permitted practice.

*Title.* Post Construction Elevation Certificate/Floodproofing Certificate.  
*Type of Information Collection.* Extension.

*OMB Number.* 3067-0077.

*Form Numbers.* FEMA Form 81-31, Elevation Certificate, FEMA Form 81-65, Floodproofing Certificate for Non-Residential Structures.

*Abstract.* The Elevation Certificate and Floodproofing Certificate are adjuncts to the application for flood insurance. The certificates are required for proper rating of post-Flood Insurance Rate Map (FIRM) structures, which are buildings constructed after publication of the FIRM, for flood insurance in Special Flood Hazard Areas. In addition, the Elevation Certificate is also needed for pre-FIRM structures being rated under post-FIRM flood insurance rules. The certificates provide community officials and others standardized documents to readily record needed information.

The certificates are supplied to insurance agents, community officials, surveyors, engineers, architects, and NFIP policyholders/applicants. The community officials or other professionals provide the elevation data required to document conformance with floodplain management regulations and for the applicants so that actuarial insurance rates can be charged. The elevation data is transmitted to the NFIP by the insurance applicant or agent with the appropriate NFIP policy forms.

The data is also used to assist FEMA in measuring the effectiveness of the NFIP regulations in eliminating or decreasing damage caused by flooding and the appropriateness of the NFIP premium charges for insuring property against the flood hazard.

*Affected Public:* Individuals and households, Businesses or other for-profit, Not-for-profit institutions, Farms, and State, local or tribal governments.

FEMA forms	No. of respondents	Hours per response	Annual burden hours
81-31	31,500	2.25	70,875
81-65	500	3.25	1,625

*Estimated Total Annual Burden Hours.* 72,500.

**COMMENTS:** Interested persons are invited to submit written comments on the proposed collection of information to Victoria Wassmer, Desk Officer for the Federal Emergency Management Agency, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 within 30 days of the date of this notice.
