

(e.g., smear papers or contaminated packaging material). The amount of waste would not be changed by the exemption.

The change will not increase the probability or consequences of accidents, no changes are being made in the types or amounts of any effluents that may be released offsite, and there is no significant increase in the allowable individual or cumulative occupational radiation exposure. Accordingly, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does involve features located entirely within the restricted area as defined in 10 CFR Part 20. It does not affect nonradiological plant effluents and has no other environmental impact. Accordingly, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

Since the Commission has concluded there is no measurable environmental impact associated with the proposed action, any alternatives with equal or greater environmental impact need not be evaluated. As an alternative to the proposed action, the NRC staff considered denial of the proposed action. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for D.C. Cook, Units 1 and 2, dated August 1973.

Agencies and Persons Consulted

In accordance with its stated policy, on July 8, 1996, the NRC staff consulted with the Michigan State official, Dennis Hahn, of the Michigan Department of Public Health, Nuclear Facilities and Environmental Monitoring, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to

prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated April 8, 1996, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Maud Preston Palenske Memorial Library, 500 Market Street, St. Joseph, Michigan 49085.

Dated at Rockville, Maryland, this 24th day of July 1996.

For the Nuclear Regulatory Commission,
John B. Hickman,
*Project Manager, Project Directorate III-1,
Division of Reactor Projects—III/IV, Office of
Nuclear Reactor Regulation.*

Sunshine Act Meeting

AGENCY HOLDING THE MEETING: Nuclear Regulatory Commission.

DATE: Weeks of July 29, August 5, 12, and 19, 1996.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of July 29

Monday, July 29

10:00 a.m.

Briefing on Uranium Recovery Program
(Public Meeting)
(Contact: Joe Holonich, 301-415-6643)

Tuesday, July 30

10:00 a.m.

Briefing by Nuclear Waste Technical
Review Board (Public Meeting)

11:30 a.m.

Affirmation Session (Public Meeting) (if
needed)

2:00 p.m.

Briefing on Status of Staff Actions on
Industry Restructuring and Deregulation
(Public Meeting)
(Contact: Dave Mathews, 301-415-1282)

Wednesday, July 31

2:00 p.m.

Briefing on EEO Program (Public Meeting)
(Contact: Ed Tucker, 301-415-7382)

Thursday, August 1

3:00 p.m.

Briefing on Spent Fuel Pool Cooling Issues
(Public Meeting)
(Contact: George Hubbard, 301-415-2870)

Week of August 5—Tentative

There are no meetings scheduled for the
Week of August 5.

Week of August 12—Tentative

There are no meetings scheduled for the
Week of August 12.

Week of August 19—Tentative

There are no meetings scheduled for the
Week of August 19.

The schedule for Commission meetings is subject to change on short notice. To verify the status of meetings call (Recording)—(301) 415-1292.

CONTACT PERSON FOR MORE INFORMATION:
Bill Hill (301) 415-1661.

The NRC Commission Meeting Schedule can be found on the Internet at: <http://www.nrc.gov/SECY/smj/schedule.htm>.

This notice is distributed by mail to several hundred subscribers: if you no longer wish to receive it, or would like to be added to it, please contact the Office of the Secretary, Attn: Operations Branch, Washington, D.C. 20555 (301-415-1963).

In addition, distribution of this meeting notice over the internet system is available. If you are interested in receiving this Commission meeting schedule electronically, please send an electronic message to alb@nrc.gov or dkwnrc.gov.

Dated: July 27, 1996.

William M. Hill, Jr.,
*SECY Tracking Officer, Office of the
Secretary.*

BILLING CODE 7590-01-M

[Docket No.: 040-00235]

Notice of Removal of the Frome Investment Company (Brooks & Perkins Corporation) Site From the Site Decommissioning Management Plan

AGENCY: Nuclear Regulatory Commission.

SUMMARY: This notice is to inform the public that the U. S. Nuclear Regulatory Commission (the Commission) is removing the Frome Investment Company (Brooks & Perkins Corporation (BP)) site in Detroit, Michigan, from the Site Decommissioning Management Plan (SDMP). BP used thorium at this site from 1957 through the late 1960s under license from the Atomic Energy Commission. BP requested and received license termination in 1971. More recent surveys at the site revealed increased radiation levels in the soil outside the garage/warehouse. Analysis on soil samples indicate thorium concentrations approaching but not exceeding NRC unrestricted release limits. However, a fragment of magnesium thorium sheet metal found at the site required proper transfer and disposal. This fragment was removed from Frome Investment Company property on February 16, 1996 and disposed of at the Barnwell, South
