**Notice of Intent To Prepare a Yuma District Resource Management Plan Amendment, Arizona****AGENCY:** Bureau of Land Management, Interior.**ACTION:** Notice of intent, notice of scoping period and notice of scoping meeting.

**SUMMARY:** Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969 and the Federal Land Policy and Management Act of 1976, the Bureau of Land Management, Yuma District, Havasu Resource Area, will be preparing an environmental assessment level Plan Amendment to the Yuma District Resource Management Plan (RMP) to assess the impacts of a proposed electrical transmission line between Kingman, Arizona and Lake Havasu City, Arizona. The proposed 230 kV transmission line would be constructed parallel and adjacent to an existing 230 kV transmission line located in the Crossman Peak Natural Scenic Area. This notice is intended to invite the public to participate in identification of issues and development of alternatives for the plan amendment.

**DATES:** A public scoping meeting to identify public concerns will be held on August 29, 1996. The meeting will start at 5:00 pm and end at 8:00 pm. The meeting will be held at the Lake Havasu City Aquatic Center, Rooms 155-156, 100 Park Avenue, Lake Havasu City, Arizona. Comments relating to the identification of issues and alternatives must be postmarked by September 13, 1996.

**ADDRESSES:** Send comments to: Bureau of Land Management, Havasu Resource Area Office, 3189 Sweetwater Avenue, Lake Havasu City, Arizona 86406.

**FOR MORE INFORMATION CONTACT:** Karen Montgomery, Realty Specialist, Havasu Resource Area. Telephone: (520) 855-8017.

**SUPPLEMENTARY INFORMATION:** The project area is located in northwestern Arizona. The proposed plan amendment will be part of a site specific project which proposes construction of a transmission line between Kingman and Lake Havasu City. Management concerns that will be addressed include but are not limited to: wildlife management, impacts on visual quality, unique vegetation, Native American Religious Concerns, and access concerns.

**Anticipated Issues**

The YUMA Resource Management Plan states that no utility rights-of-way will be authorized in the Crossman Peak Natural Scenic Area. An amendment to the plan completed in 1994 states that "no additional utility rights-of-way would be authorized for the Crossman Peak Natural Scenic Area, except applications for terminal utility lines to serve private land may be accepted and considered to the extent needed to provide reasonable access pursuant to Federal Law". The Natural Scenic Area has an existing transmission line which was studied as a utility corridor in the Resource Management Plan. The proposed route through the Natural Scenic Area parallels the existing transmission line. The plan amendment is being prepared so that the proposed action can include the route through the Crossman Peak area. An Environmental Assessment level analysis is being prepared since no significant impacts are anticipated.

**Other Relevant Information**

The amendment will be developed by an interdisciplinary team of resource specialists. The team will include a project manager, a wildlife specialist, a visual resources specialist, a biological resources specialist, and a cultural resource specialist. Complete records of all phases of the plan amendment process will be available for public review at Havasu Resource Area Office, Lake Havasu City, Arizona.
