

Sand Creek Site have been achieved as outlined in OSWER Directive 9320.2-3A.

EPA, with the concurrence of the State of Colorado, has determined that all appropriate Fund-financed responses required by CERCLA at the Sand Creek Site have been completed. Continued maintenance of the LFGES and landfill cap/cover/fencing is required as well as continuance of the groundwater and landfill gas monitoring programs.

Dated: August 12, 1996.

Jack W. McGraw,

Acting Regional Administrator, U.S. Environmental Protection Agency, Region VIII.

[OPPTS-400104D; FRL-5394-7]

RIN 2070-AC71

Addition of Facilities in Certain Industry Sectors; Toxic Chemical Release Reporting; Community Right-to-Know; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; further extension of comment period.

SUMMARY: In the Federal Register of June 27, 1996, EPA issued a proposed rule to add seven industry groups to the list of industries required to report under the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA) section 313 and section 6607 of the Pollution Prevention Act of 1990 (PPA). In order to provide additional time to comment on this proposal and the additional documents available as announced in the Federal Register on August 21, 1996 (61 FR 43207), EPA is extending the comment period until September 25, 1996.

DATES: Comments must be received by September 25, 1996.

ADDRESSES: Written comments should be submitted in triplicate to: OPPT Docket Clerk, TSCA Document Receipt Office (7407), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-G099, 401 M St., SW., Washington, DC 20460. Comments containing information claimed as confidential must be clearly marked as confidential business information (CBI). If CBI is claimed, three additional sanitized copies must also be submitted. Nonconfidential versions of comments on the proposed rule will be placed in the rulemaking

record and will be available for public inspection. Comments should include the docket control number for this document, OPPTS-400104D and the EPA contact for this document. Unit II. of this document contains additional information on submitting comments containing information claimed as CBI.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: oppt.ncic@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number OPPTS-400104D. No CBI should be submitted through e-mail. Electronic comments on this proposed rule may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found in Unit II. of this document.

FOR FURTHER INFORMATION CONTACT: Tim Crawford at 202-260-1715, e-mail: crawford.tim@epamail.epa.gov, or Brian Symmes at 202-260-9121, e-mail: symmes.brian@epamail.epa.gov, or the Emergency Planning and Community Right-to-Know Information Hotline, Environmental Protection Agency, Mail Stop 5101, 401 M St., SW., Washington, DC 20460, Toll free: 1-800-535-0202, in Virginia and Alaska: 703-412-9877 or Toll free TDD: 1-800-553-7672.

SUPPLEMENTARY INFORMATION:

I. Introduction

Current EPCRA section 313 reporting requirements apply to facilities classified in the manufacturing sector (Standard Industrial Classification codes 20-39) that have 10 or more full-time employees, and that manufacture, process, or otherwise use one or more listed section 313 chemicals above certain threshold amounts. EPA has been in the process of evaluating industry groups for potential addition under EPCRA section 313. EPA recently issued a proposed rule to add seven industry groups to the list of industries subject to EPCRA section 313 reporting requirements (61 FR 33588, June 27, 1996) (FRL-5379-3). At 61 FR 43207, August 21, 1996 (FRL-5393-4), EPA issued a Notice extending the comment period for certain additional documents to September 4, 1996. This Notice further extends the comment period for the proposal and the additional documents to September 25, 1996.

EPA believes that by extending the comment period by 30 days it can adequately satisfy the needs of those

who strongly feel that they need additional time to prepare their comments on the proposed rule as well as those who feel equally strongly that the public's right to know about toxic chemical releases and other waste information from these additional industry groups should not be delayed another year. Expanding the amount of information available to the American public about the environment in their community is a priority for EPA. The Agency remains committed to receiving and reviewing public comments and moving expeditiously to finalize this important rulemaking.

II. Rulemaking Record

A record has been established for this rulemaking under docket number "OPPTS-400104D" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from noon to 4 p.m., Monday through Friday, excluding legal holidays. The public record is located in the TSCA Nonconfidential Information Center (NCIC), located at EPA Headquarters, Rm. E-B607, 401 M St., SW., Washington, DC 20460.

Any person who submits comments claimed as CBI must mark the comments as "confidential," "CBI," or other appropriate designation. Comments not claimed as confidential at the time of submission will be placed in the public file. Any comments marked as confidential will be treated in accordance with the procedures in 40 CFR part 2. Any person submitting comments claimed to be confidential must prepare a nonconfidential public version of the comments in triplicate that EPA can put in the public file.

Electronic comments can be sent directly to EPA at:

ncic@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this rulemaking, as well as the public version, described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official rulemaking record which will also include all comments submitted directly in writing. The official rulemaking record is the paper record maintained at the address in ADDRESSES at the beginning of this document.

List of Subjects in 40 CFR Part 372

Environmental protection, Community right-to-know, Reporting and recordkeeping requirements, Toxic chemicals.

Dated: August 23, 1996.

Susan H. Wayland,
Acting Assistant Administrator for
Prevention, Pesticides and Toxic Substances.

BILLING CODE 6560-50-F

**FEDERAL EMERGENCY
MANAGEMENT AGENCY**

44 CFR Part 67

[Docket No. FEMA-7190]

**Proposed Flood Elevation
Determinations**

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of

the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Michael K. Buckley, P.E., Chief, Hazard Identification Branch, Mitigation Directorate, 500 C Street S.W., Washington, DC 20472, (202) 646-2756.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Acting Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the

requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the National Flood Insurance Program. As a result, a regulatory flexibility analysis has not been prepared.

Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform

This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq.; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

3. The tables published under the authority of § 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)	
				Existing	Modified
Florida	Okaloosa County (Unincorporated Areas).	Gulf of Mexico	Approximately 800 feet south of intersection of Amberjack Drive and Santa Rosa Boulevard.	*6	*10
			Approximately 1,000 feet southwest of intersection of Interstate Route 98 and Calhoun Avenue.	*9	*12
			Approximately 600 feet south of intersection of Amberjack Drive and Santa Rosa Boulevard.	None	*10
