

Three additional forms were previously approved under the OMB number cited above. These forms have been discontinued for the following reasons:

*HRSA-514, HPSL & NSL Application to Participate:* This form was used by schools to apply to participate in the programs. Because there have been no program appropriations for several years, and the schools are operating the program only with revolving loan funds, the application form is no longer used.

*HRSA 518, Request for Postponement of Installment Payment, and HRSA 520, Request for Partial Cancellation of Loan:* These forms, which were used by borrowers to request cancellation or postponement of their student loan payments in return for service as a Registered Nurse, are no longer needed. The NSL cancellation provision for service as a Registered Nurse has been repealed for loans made on or after September 29, 1979. There are now no students eligible for these benefits.

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Virginia Huth, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, D.C. 20503.

Dated: August 20, 1996.

J. Henry Montes,

*Associate Administrator for Policy Coordination.*

BILLING CODE 4160-15-P

### **Special Projects of National Significance; Adolescent-focused HIV Service Delivery and Care Demonstration Models**

**AGENCY:** Health Resources and Services Administration, HHS.

**ACTION:** Notice of limited competition.

**SUMMARY:** The Health Resources and Services Administration (HRSA) announces a limited competition to support the completion and dissemination of innovative programs to advance knowledge and skills in the delivery of health and support services for adolescents at high risk for infection or who are living with HIV disease. The purpose of the Special Projects of National Significance (SPNS) Program is to demonstrate innovative and replicable service delivery models of HIV care, to conduct rigorous evaluations on the models proposed, and to disseminate the project findings and lessons learned. Awards will be

made under the program authority of Section 2691 of the Public Health Service Act, as amended by the Ryan White CARE Act Amendments of 1996, Public Law 104-146, dated May 20, 1996.

HRSA is limiting competition among those ten (10) currently funded Special Projects of National Significance (SPNS) Program Adolescent-focused HIV Service Delivery and Care Demonstration Model grants that were initially funded in fiscal years (FY) 1992 and 1993 for three years; including: Bay Area Young Positives, San Francisco, CA; Children's Hospital of Boston, Boston HAPPENS Program, Boston, MA; Children's Hospital of Los Angeles, Division Of Adolescent Medicine, Los Angeles, CA; Greater Bridgeport Adolescent Pregnancy Project, TOPS Program, Bridgeport, CT; Health Initiatives for Youth, Youth Empowerment Services Project, San Francisco, CA; Indiana State Department of Health/Indiana Youth Access Project, Indianapolis, IN; University of Alabama at Birmingham, Division of Adolescent Medicine, Birmingham, AL; University of Minnesota Youth & AIDS Project, Minneapolis, MN; Walden House, Inc., Adolescent Planetree Program, San Francisco, CA; and YouthCare, Adolescent Health Promotion Program, Seattle, WA.

Experience has taught the SPNS Program that a minimum five year project period is required to maximize the opportunity to fully and comprehensively initiate, evaluate and disseminate the models of HIV care developed by SPNS Program grantees. In their first three years of funding, these ten (10) adolescent-focused SPNS Program grantees have successfully identified a set of core characteristics relating to the provision of services for young people.

**GRANTS/AMOUNTS:** This program announcement is a contingency action being taken to assure that should funds become available in fiscal year (FY) 1997 for this purpose, grants can be awarded in a timely fashion consistent with the needs of the program. It is anticipated that a maximum of ten (10) projects will be approved and funded for fiscal year (FY) 1997. All budget periods for funded projects will begin on December 1, 1996. Project periods will be for two years.

**FOR FURTHER INFORMATION CONTACT:** Additional information may be obtained from Mr. Russell E. Brady, Project Officer, SPNS Branch, Office of Science and Epidemiology, Bureau of Health Resources Development, Health

Resources and Services Administration, 5600 Fishers Lane, Room 7A-08, Rockville, MD 20857. The telephone number is (301) 443-3496 or (301) 443-9976 and the FAX number is (301) 594-2511.

#### **OTHER GRANT INFORMATION:**

*Certification Regarding Environmental Tobacco Smoke:* The Public Health Service strongly encourages all grant and contract recipients to provide a smoke-free workplace and to promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care or early childhood development services are provided to children.

(OMB Catalog of Federal Domestic Assistance: The number for the Special Projects of National Significance is 93.928.)

Dated: August 27, 1996.

### **Program Announcement for a Cooperative Agreement with a Professional Trade Association Representing Health Maintenance Organizations**

The Health Resources and Services Administration (HRSA) announces that applications will be accepted for a fiscal year (FY) 1996 Cooperative Agreement with a professional trade association representing health maintenance organizations. This activity will be supported under the authority of Title III, Section 301, of the Public Health Service Act. Approximately \$125,000 is available to fund one competitive cooperative agreement in FY 1996. The project period will be three years.

#### **Background**

Several years ago the Health Resources and Services Administration (HRSA) in the Department of Health and Human Services (the Department) became aware of the low numbers of minority health administrators in health maintenance organizations and other managed care systems in the United States. In response to this concern, HRSA supported the development of a Health Management Training Institute for Minorities in Health Maintenance Organizations which has been demonstrated in the Baltimore-Washington area. Since July 1993, 28
