**ENVIRONMENTAL PROTECTION AGENCY**

[FRL-5610-2]

**Proposed Settlement Agreement, Clean Air Act Citizen Suit**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of proposed settlement; request for public comment.

**SUMMARY:** In accordance with section 113(g) of the Clean Air Act, as amended, ("Act"), notice is hereby given of a proposed partial consent decree, which was lodged with the United States District Court for the District of Columbia by the United States Environmental Protection Agency ("EPA") on August 23, 1996, in a lawsuit filed by the Sierra Club Legal Defense Fund. This lawsuit, which was filed pursuant to section 304(a) of the Act, 42 U.S.C. § 7604(a), concerns, among other things, EPA's alleged failure to meet a mandatory deadline under section 608(a)(2) of the Clean Air Act. The proposed partial consent decree provides that EPA shall take certain regulatory actions under section 608(a)(2) in accordance with specified schedules.

For a period of thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the proposed partial consent decree from persons who were not named as parties to the litigation in question. EPA or the Department of Justice may withhold or withdraw consent to the proposed partial consent decree if the comments disclose facts or circumstances that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of

the Act. Unless EPA or the Department of Justice determines, following the comment period, that consent is inappropriate, the final partial consent decree will establish deadlines for specific regulatory actions under § 608(a)(2) of the CAA.

A copy of the proposed partial consent decree was lodged with the Clerk of the United States District Court for the District of Columbia on August 23, 1996. Copies are also available from Jacquie Jordan, Cross-Cutting Issues Division (2322), Office of General Counsel, U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460, (202) 260-7622. Written comments should be sent to Jan M. Tierney at the address above and must be submitted on or before October 17, 1996.

Dated: August 30, 1996.  
 Scott Fulton,  
*Acting General Counsel.*

**Gulf of Mexico Program Policy Review Board; Notice of Charter Renewal**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of charter renewal.

The Charter for the Environmental Protection Agency's (EPA) Gulf of Mexico Program Policy Review Board (PRB) will be renewed for an additional two-year period, as a necessary committee which is in the public interest, in accordance with the provisions of the Federal Advisory Committee Act (FACA), 5 U.S.C. The purpose of the PRB is to provide advice and counsel to State and Federal agencies on issues associated with environmental management and policy of the Gulf of Mexico. It is determined that the PRB is in the public interest in

connection with the performance of duties imposed on the Agency by law.

Inquiries may be directed to James D. Giattina, Designated Federal Official, Gulf of Mexico Program PRB, U.S. EPA, Director of the Gulf of Mexico Program Office, Building 1103, Room 202, Stennis Space Center, Mississippi 39529.

Dated: September 9, 1996.  
 James D. Giattina,  
*Designated Federal Official.*

**Science Advisory Board; Notification of Public Advisory Committee Meeting Open Meeting**

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Human Exposure and Health Subcommittee (HEHS) of the Science Advisory Board's (SAB) Integrated Risk Project will meet on October 9-10, 1996, in room 3075, Building 90, at the Ernest O. Lawrence Berkeley National Laboratory, 1 Cyclotron Road, Berkeley CA 94720. The meeting will begin at 9:00 a.m. and end no later than 5:00 p.m. on each day. All times noted are Pacific Time. This meeting is open to the public, but prior registration is required (see below).

The main purpose of the meeting is to continue discussions (initiated at the Committee's previous meeting on June 13/14, 1996) of human exposure (and their consequences) to various pollutants and to consider the potential for risk reduction. Members of the Committee will report back on their efforts to "pilot test" four possible approaches for assessing exposure and risk. The Subcommittee's activities are part of an SAB project to update the 1990 SAB report, Reducing Risk: Setting

Priorities and Strategies for Environmental Protection. In a letter dated October 25, 1995, to Dr. Matanoski, Chair of the SAB Executive Committee, Deputy Administrator Fred Hansen charged the SAB to: 1) develop an updated ranking of the relative risk of different environmental problems based upon explicit scientific criteria; 2) provide an assessment of techniques and criteria that could be used to discriminate among emerging environmental risks and identify those that merit serious, near-term Agency attention; 3) assess the potential for risk reduction and propose alternative technical risk reduction strategies for the environmental problems identified; and 4) identify the uncertainties and data quality issues associated with the relative rankings. The project will be conducted by several SAB panels, including HEHS, working at the direction of an ad hoc Steering Committee established by the Executive Committee.

Single copies of Reducing Risk can be obtained by contacting the SAB's Committee Evaluation and Support Staff (1400), 401 M Street, SW, Washington, DC 20460, telephone (202) 260-8414, or fax (202) 260-1889. Members of the public desiring additional information about the meeting, including an agenda, should contact Ms. Mary Winston, Staff Secretary, Science Advisory Board (1400F), US EPA, 401 M Street, SW, Washington DC 20460, by telephone at (202) 260-6552, fax at (202) 260-7118, or via the INTERNET at: Winston.Mary@EPAMAIL.EPA.GOV.

Anyone wishing to attend the meeting, and/or make an oral presentation to the Committee should register with Samuel Rondberg, Designated Federal Official for the HEHS, no later than 4:00 p.m., October 3, 1996, at (202) 260-2559 or via the INTERNET at Rondberg.Sam@EPAMAIL.EPA.GOV. Prior registration is required for admission to the Lawrence Berkeley Laboratory complex. The registration request should include name and affiliation of the attendee, and indicate if parking space at the laboratory complex will be required. Anyone wishing to make a presentation should also provide an outline of the issues to be addressed. At least 35 copies of any written comments to the Committee are to be given to Mr. Rondberg no later than the time of the presentation for distribution to the Committee and the interested public. See below for additional information on providing comments to the SAB.

#### Providing Oral or Written Comments at SAB Meetings

The Science Advisory Board expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements. In general, each individual or group making an oral presentation will be limited to a total time of ten minutes. For conference call meetings, opportunities for oral comment will be limited to no more than five minutes per speaker and no more than fifteen minutes total. Written comments (at least 35 copies) received in the SAB Staff Office sufficiently prior to a meeting date, may be mailed to the relevant SAB committee or subcommittee prior to its meeting; comments received too close to the meeting date will normally be provided to the committee at its meeting. Written comments may be provided to the relevant committee or subcommittee up until the time of the meeting.

Dated: September 5, 1996.

Donald G. Barnes,

*Staff Director, Science Advisory Board.*

#### Proposed De Minimis Settlement Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as Amended by the Superfund Amendments and Reauthorization Act—Golden, CO

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice and request for public comment.

**SUMMARY:** In accordance with the requirements of section 122 (I) (1) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (CERCLA), notice is hereby given of a proposed de minimis settlement under section 122 (g), concerning the Colorado School of Mines Research Institute site in Golden, Colorado (Site). The proposed Administration Order on Consent (AOC) requires five (5) Potentially Responsible Parties to Pay an aggregate total of \$215,640.36 to address their liability to the United States Environmental Protection Agency (EPA) related to response actions taken or to be taken at the Site.

**OPPORTUNITY FOR COMMENT:** Comments must be submitted by October 17, 1996.

**ADDRESSES:** The proposed settlement is available for public inspection at the

EPA Superfund Record Center, 999 18th Street, 5th Floor, North Tower, Denver, Colorado. Comments should be addressed to Maureen O'Reilly, Enforcement Specialist, (8ENF-T), U.S. Environmental Protection Agency, 999 18th Street, Suite 500, Denver, Colorado, 80202-2405, and should reference the Colorado School of Mines Research Institute site de minimis settlement (EPA Docket No. CERCLA-VIII-96-17).

**FOR FURTHER INFORMATION CONTACT:** Maureen O'Reilly, Enforcement Specialist, at (303) 312-6402.

**SUPPLEMENTARY INFORMATION:** Notice of section 122 (g) de minimis settlement: In accordance with section 122(I)(1) of CERCLA, notice is hereby given that the terms of an Administrative Order on Consent (AOC) have been agreed to by the following five (5) parties, for the following amounts:

Energy Fuels Nuclear, Inc.....	\$326,800.73
Kennecott Corporation, Kennecott Holdings Corporation, and Kennecott Utah Copper Corporation .....	\$30,285.75
Lockheed Corporation .....	\$554.20

By the terms of the proposed AOC, these parties will together pay \$215,640.36 to the Hazardous Substance Superfund. This payment represents approximately .035% of the total anticipated response costs for the Site upon which this settlement is based.

In exchange for payment, EPA will provide the settling parties with a limited covenant not to sue for liability under sections 106 and 107(a) of CERCLA, including liability for EPA's past costs, the cost of the remedy, and future EPA oversight costs, and under section 7003 of the Solid Waste Disposal Act, as amended (also known as the Resource Conservation and Recovery Act).

The settlement amount that each PRP will pay, as shown above, depends upon whether they contributed radioactive hazardous substances or non-radioactive hazardous substances to the Site. The per pound cost for non-radioactive hazardous substances is \$1.54. The per pound cost for radioactive hazardous substances is \$3.08. Settlement amounts are calculated by multiplying these per pound costs by the number of pounds of hazardous substances a party sent to the Site (Base Amount), adding a premium of either 30% or 130% of the Base Amount, as specified by each PRP in the AOC, and adding a \$200 administrative fee. For parties paying a 30% premium (Energy Fuels Nuclear, Inc.), there is an exception to the covenant not to sue if total response costs at the Site exceed \$6,000,000. For
