If not collected, RHS would be unable to provide the widest range of servicing options available and thereby possibly causing borrowers to fail in meeting loan and program objectives and/or protect the security interest of the Government.

SUPPLEMENTARY INFORMATION

I. Abstract

Planning is currently underway for the 1997 American Community Survey (ACS). Data from the ACS will determine the feasibility of a continuous measurement system that provides socioeconomic data on a continual basis throughout the decade. The Census Bureau must provide a sample of persons residing in Group Quarters (GSs) the opportunity to be interviewed

for the ACS. GSs include places such as student dorms, correctional facilities, hospitals, nursing homes, shelters, and military quarters. Obtaining information from the GQ will ensure that we include the necessary people residing at the GQ in the 1997 ACS.

Using the ACS-2(GQ) Facility Questionnaire, we will phone a sample of Group Quarters in Franklin County, OH (due to cost and operational restrictions, Franklin County is the only test site). We will verify/update information such as GQ name, address, phone number, and type. We will collect information such as the name of a GQ contact, current/maximum number of residents at the facility, usual length of stay, and availability of facility records. This information will assist in the sampling and enumeration of individuals living in each GQ.

II. Method of Collection

Telephone interviews will be conducted by the Detroit regional office using a paper questionnaire.
