DEPARTMENT OF ENERGY

[Dockets EA-121 and EA-122]

Application To Export Electric Energy; Electric Clearinghouse, Inc.

AGENCY: Office of Fossil Energy, DOE.
ACTION: Notice of application.

SUMMARY: Electric Clearinghouse, Inc. (ECI) has submitted applications to export electric energy to Mexico and Canada pursuant to section 202(e) of the Federal Power Act. ECI is a marketer of electric energy. It does not own or control any electric generation or transmission facilities.

DATES: Comments, protests or requests to intervene must be submitted on or before October 18, 1996.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Electricity (FE-52), Office of Fuels Programs, Office of Fossil Energy, Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585 (FAX 202-287-5736).

FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office) 202-586-9624 or Michael Skinker (Program Attorney) 202-586-6667.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On September 17, 1996, ECI filed two applications with the Office of Fossil Energy (FE) of the Department of Energy (DOE) for authorization to export electric energy, as a power marketer, to Mexico (Docket EA-121) and Canada (Docket EA-122) pursuant to section 202(e) of the FPA. ECI neither owns nor controls any facilities for the generation or transmission of electricity, nor does it have a franchised service area. Rather, ECI is a power marketer authorized by the Federal Energy Regulatory Commission (FERC) to engage in the wholesale sale of electricity in interstate commerce at negotiated rates pursuant to its filed rate schedules.

The electric energy ECI proposes to transmit to Mexico and Canada will be purchased from electric utilities and other entities as permitted by the FERC. ECI agrees to comply with the terms and conditions contained in the export authorization issued for those cross-border facilities it proposes to use as well as any other conditions imposed by DOE, including providing written evidence that sufficient transmission access to complete the export transaction has been obtained.

In Docket EA-121, ECI proposed to export the electric energy to Mexico over one or more of the following international transmission lines for which Presidential permits (PP) have been previously issued:

Owner	Location	Voltage	Presidential permit No.
San Diego Gas & Elect.	Miguel, CA	230 kV	PP-68.
