BILLING CODE 4310–70–P

**Bureau of Reclamation****Bay-Delta Advisory Council Meeting**

**AGENCY:** Bureau of Reclamation,  
Interior.

**ACTION:** Notice of meeting.

**SUMMARY:** The Bay-Delta Advisory Council (BDAC) will meet to discuss several issues including: The role of water transfers in the CALFED Bay-Delta long-term solution; the role and scope of the water use efficiency component; durability of the long-term solution; and updates on the finance and system integrity components of the program. This meeting is open to the public. Interested persons may make oral statements to the BDAC or may file written statements for consideration.

**DATES:** The Bay-Delta Advisory Council meeting will be held from 10 a.m. to 5 p.m. on Friday, October 25, 1996.

**ADDRESSES:** The Bay-Delta Advisory Council will meet at the Sacramento Convention Center, 1400 J Street, Room 204, Sacramento, CA.

**CONTACT PERSON FOR MORE INFORMATION:** Sharon Gross, CALFED Bay-Delta Program, at (916) 657–2666. If reasonable accommodation is needed due to a disability, please contact the Equal Employment Opportunity Office at (916) 653–6952 or TDD (916) 653–6934 at least one week prior to the meeting.

**SUPPLEMENTARY INFORMATION:** The San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta system) is a critically important part of California's natural environment and economy. In recognition of the serious problems facing the region and the complex resource management decisions that

must be made, the State of California and the Federal Government are working together to stabilize, protect, restore, and enhance the Bay-Delta system. The State and Federal agencies with management and regulatory responsibilities in the Bay-Delta system are working together as CALFED to provide policy direction and oversight for the process.

One area of Bay-Delta management includes the establishment of a joint State-Federal process to develop long-term solutions to problems in the Bay-Delta system related to fish and wildlife, water supply reliability, natural disasters, and water quality. The intent is to develop a comprehensive and balanced plan which addresses all of the resource problems. This effort, the CALFED Bay-Delta Program (Program), is being carried out under the policy direction of CALFED. The CALFED Bay-Delta Program is exploring and developing a long-term solution for a cooperative planning process that will determine the most appropriate strategy and actions necessary to improve water quality, restore health to the Bay-Delta ecosystem, provide for a variety of beneficial uses, and minimize Bay-Delta system vulnerability. A group of citizen advisors representing California's agricultural, environmental, urban, business, fishing, and other interests who have a stake in finding long-term solutions for the problems affecting the Bay-Delta system has been chartered under the Federal Advisory Committee Act (FACA) as the Bay-Delta Advisory Council (BDAC) to advise CALFED on the program mission, problems to be addressed, and objectives for the CALFED Bay-Delta Program. BDAC provides a forum to help ensure public participation, and will review reports and other materials prepared by CALFED staff.

Minutes of the meeting will be maintained by the CALFED Bay-Delta Program, Suite 1155, 1416 Ninth Street, Sacramento, CA 95814, and will be available for public inspection during regular business hours, Monday through Friday within 30 days following the meeting.

Dated: September 30, 1996.

Roger Patterson,

*Regional Director, Mid-Pacific Region.*

## DEPARTMENT OF JUSTICE

### Bureau of Justice Statistics

[OJP(BJS) No. 1103]

ZRIN 1121-ZA52

### Inventory of State Corrections Information Systems

**AGENCY:** Office of Justice Programs (OJP), Bureau of Justice Statistics (BJS), U.S. Department of Justice.

**ACTION:** Solicitation for award of cooperative agreement.

**SUMMARY:** The purpose of this notice is to announce a public solicitation for services of data gathering, collection of file documentation, site visits, and data processing for an Inventory of State Corrections Information Systems.

**DATES:** Proposals must be postmarked on or before November 26, 1996.

**ADDRESSES:** Proposals should be mailed to: Application Coordinator, Bureau of Justice Statistics, Room 303, 633 Indiana Avenue NW., Washington, DC 20531, (202) 633-3004.

**FOR FURTHER INFORMATION CONTACT:** Allen J. Beck, Ph.D., Chief, Corrections Statistics, Bureau of Justice Statistics, (202) 633-3009.

#### SUPPLEMENTARY INFORMATION:

##### Background

The Inventory of State Corrections Information Systems is a collaborative effort sponsored by the Bureau of Justice Statistics (BJS), National Institute of Justice (NIJ), and Corrections Program Office (CPO), components of the Office of Justice Programs, U.S. Department of Justice. With assistance from the Association of State Corrections Administrators (ASCA), the inventory is designed to assess the current status of offender-based information systems in State departments of corrections and the Federal Bureau of Prisons.

In a series of meetings, correctional administrators, directors of research, and Directors and staff representatives of the National Institute of Corrections (NIC), the Federal Bureau of Prisons (BOP), NIJ, and BJS identified the need for developing or updating common data definitions in the corrections field. Correctional administrators expressed concern that they lack basic information needed to formulate new policies or to defend existing practices. Researchers highlighted the difficulties of conducting comparative studies in the absence of basic agreement on concepts and definitions, and the diversity in the quality and coverage of data elements available in State correctional information systems.

BJS is the lead agency for this study because of its long-term experience in data collection and development of information systems. BJS's corrections statistics program maintains numerous national statistical collections, which rely on data supplied by Federal, State, and local correctional administrators. These programs include the National Corrections Reporting Program (NCRP), National Prisoners Statistics, Censuses of Jails, Prisons, Probation and Parole Agencies, Annual Survey of Jails, and Annual Probation and Parole Data Surveys. These programs rely on uniform measurement rules, standardized concepts and definitions, and common reporting criteria. Further information about these data series, and the latest publications, are available electronically on the Internet at <http://www.ojp.usdoj.gov/bjs/>

The NCRP provides a model for collecting offender-based information. Begun in 1983 NCRP combined the National Prisoners Statistics program (NPS) on prison admissions and releases and the Uniform Parole Reports (UPR) into one reporting system. In 1994, 39 States, the District of Columbia, and California Youth Authority participated in NCRP, providing individual-level data on prisoners admitted to prison, released from prison, or released from parole. Participation in the NCRP is incomplete, however. 11 States do not participate, and among some participants, the data reported differ from NCRP reporting standards.

The Inventory of State Corrections Information Systems will help answer the questions raised by correctional administrators and researchers, identify obstacles to more complete participation in NCRP, determine what assistance States may need to develop improved offender-based statistical data systems, and outline the factors underlying variations in completeness or consistency in data elements and definitions among participating jurisdictions.

#### Objectives

The purpose of this award is to conduct an inventory of all State-level and BOP offender-based correctional information systems. It is anticipated that the collected information will be useful in improving Federal, State and local data collection and information systems.

#### Type of Assistance

Assistance will be made available under a cooperative agreement.
