

EPA, have taken an interest in pursuing electronic transfer of TSCA summary data and of full submissions to EPA. In particular, CMA has developed a standardized cover sheet for voluntary use by industry as a first step to an electronic future and to begin familiarizing companies with standard requirements and concepts of electronic transfer. This form is designed for voluntary use as a cover sheet for submissions of information under TSCA sections 4, 8(d) and 8(e). The cover sheet will facilitate submission of information by displaying certain basic data elements, permitting EPA more easily to identify, log, track, distribute, review and index submissions, and to make information publicly available more rapidly and at reduced cost, to the mutual benefit of both the respondents and EPA. The information collection request referenced in this notice applies to the use of this form/cover sheet.

Responses to the collection of information are voluntary. Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden Statement: The annual public reporting burden for this collection of information is estimated to average approximately 0.5 hours per response. This estimate includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

Respondents/Affected Entities: Entities potentially affected by this action are companies that manufacture, process, use or import chemical substances and that are subject to reporting requirements under sections 4, 8(d) or 8(e) of TSCA.

Estimated No. of Respondents: 2,240.

Estimated Total Annual Burden on Respondents: 1,348 hours.

Frequency of Collection: On occasion. According to the procedures prescribed in 5 CFR 1320.10, EPA has submitted this ICR to OMB for review and approval. Any additional comments related to this ICR should be submitted within 30 days as described above.

Dated: October 3, 1996.
