SUPPLEMENTARY INFORMATION:

History

On July 31, 1996, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Class E airspace at Aniak was published in the Federal Register (61 FR 39919). The development of a GPS instrument approach procedure to RWY 10 at Aniak Airport, AK, has made this action necessary.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposals were received, thus, the rule is adopted as written.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace areas designated as 700/1200 foot transition areas are published in Paragraph 6005 of Federal Aviation Administration Order 7400.9D, dated September 4, 1996, and effective September 16, 1996, which are incorporated by reference in 14 CFR 71.1 (61 FR 48403; September 13, 1996). The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) establishes Class E airspace located at Aniak, AK, to provide controlled airspace extending upward from 700 feet AGL for aircraft executing instrument landing and departing procedures.

The Federal Aviation Administration has determined that these proposed regulations only involve an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
