*Number of Respondents:* 104,650.

*Avg Hours Per Response:* 15 minutes.

*Needs and Uses:* The Census Bureau uses the BC-170, "Census Employment Inquiry" to obtain employment information from job applicants before or at the time they are tested. The data gathered are used by selecting officials to determine an applicant's initial qualifications to fill Census jobs. The form is intended to facilitate speedy hiring and selection in situations requiring large numbers of temporary employees for assignments of a limited duration. The BC-170 is used in lieu of Form OF-612, "Optional Application for Federal Employment," or a resume but an applicant is not required to complete a BC-170 if he/she has either of these other documents completed.

*Affected Public:* Individuals or households.

*Frequency:* One-time.

*Respondent's Obligation:* Required to obtain or retain benefits.

*Legal Authority:* Title 13 USC, Section 23.

*OMB Desk Officer:* Jerry Coffey, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, Acting DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce, room 5312, 14th and Constitution Avenue, NW, Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Jerry Coffey, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

### Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* Bureau of the Census.

*Title:* Applicant Background Questionnaire.

*Form Number(s):* BC-1431.

*Agency Approval Number:* 0607-0494.

*Type of Request:* Revision of a currently approved collection.

*Burden:* 2,032 hours.

*Number of Respondents:* 48,750.

*Avg Hours Per Response:* Two and one-half minutes.

*Needs and Uses:* The Census Bureau uses the Applicant Background Questionnaire to obtain information such as medical disabilities and race and national origin from applicants for Schedule A (excepted service) positions. The data collected are analyzed to evaluate and improve the Bureau's Schedule A hiring program and to strengthen our ability to develop a more widely diverse workforce. We believe that by hiring a workforce culturally familiar with the census enumeration areas we collect better quality data, conclude the data collection in a more timely fashion and also achieve our hiring goals.

*Affected Public:* Individuals or households.

*Frequency:* One-time.

*Respondent's Obligation:* Voluntary.

*Legal Authority:*

### Foreign-Trade Zones Board

[Docket 78-96]

#### Foreign-Trade Zone 49—Newark/Elizabeth, NJ, Proposed Foreign-Trade Subzone, Chevron Products Company (Crude Oil Refinery), Perth Amboy, New Jersey

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Port Authority of New York and New Jersey, grantee of FTZ 49, requesting special-purpose subzone status for the crude oil refinery of Chevron Products Company, located in Perth Amboy, New Jersey. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on October 21, 1996.

The refinery (80,000 barrels per day capacity; 82 employees) is located at a 340-acre site at 1200 State Street, Perth Amboy (Middlesex County), New Jersey, in the New York City port of entry area. It is used to produce asphalt and refinery feedstocks, including residual fuel oil, distillate fuel oil, kerosene, naphthas, propane, butane and other petroleum gases. All of the crude oil (nearly all inputs) is sourced abroad.

Zone procedures would exempt the refinery from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the finished product duty rate (nonprivileged foreign status—NPF) on asphalt, and certain other refinery products such as propane, butane and other petroleum gases (duty-free) instead of the duty rates that would otherwise apply to the foreign-sourced inputs (e.g., crude oil, natural gas condensate). The duty on inputs ranges from 5.25¢ to 10.5¢/barrel. The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is December 30, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to January 14, 1996).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

**[Docket 77-96]**

**Foreign-Trade Zone 147—Reading, Pennsylvania; Request for Manufacturing Authority, Baker Refractories, Inc. (Refractory Bricks)**

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Foreign Trade Zone Corporation of Southeastern Pennsylvania, grantee of FTZ 147, pursuant to § 400.28(a)(2) of the Board's regulations (15 CFR Part 400), requesting authority on behalf of Baker Refractories, Inc. (Baker), to manufacture refractory bricks under zone procedures within FTZ 147. It was formally filed on October 18, 1996.

The Baker plant (446,000 sq. ft. on 624 acres) is located at 225 North Emigsville Road within a proposed site of FTZ 147 in the International Trade District of York, in the County of York, Pennsylvania. (Pending expansion application: Docket 3-96, 61 FR 2487, 1-26-96.) The Baker plant (360 employees) is used to manufacture refractory bricks and related products for the metals and mineral processing industries. A key material component, magnesia, is sourced from abroad (magnesia duty rate, \$0.2/kg). The finished magnesite bricks are duty-free. The application indicates that 35 percent of the plant's shipments are exported.

Zone procedures would exempt Baker from Customs duty payments on the foreign components used in export production. On its domestic sales, Baker would be able to defer duty payments on the foreign sourced magnesia until the finished bricks (duty-free) are shipped from the plant. The company is also seeking an exemption from Customs duties on scrap and waste that is generated in the production process (2.5%). The request indicates that the

savings from zone procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is November 29, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to December 16, 1996).

A copy of the application and the accompanying exhibits will be available for public inspection at the following location: Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 3716, 14th Street & Pennsylvania Avenue, NW., Washington, DC 20230.

Dated: October 18, 1996.

**Docket A(32b1)-4-96**

**Foreign-Trade Zone 39—Dallas/Fort Worth, TX, Request for Manufacturing Authority, Selective Technology, Inc. (Automotive Air-Conditioner Components)**

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Dallas/Fort Worth International Airport Board, grantee of FTZ 39, pursuant to § 400.32(b)(1) of the Board's regulations (15 CFR Part 400), requesting authority on behalf of Selective Technologies, Inc. (Seltec) (a joint-venture of Tama Manufacturing and Zexel, of Japan), to manufacture automotive air-conditioner compressors under zone procedures within FTZ 39. It was formally filed on October 18, 1996.

Seltec operates an automotive air-conditioner compressor assembly facility (50 employees) within FTZ 39, and this application requests authority to allow Seltec to conduct the activity under FTZ procedures. Seltec's compressors are sold in the automotive parts aftermarket and to specialty original equipment motor vehicle manufacturers in the U.S. and abroad. The activity involves the assembly of finished air-conditioner compressors using foreign-sourced compressor units

(comprising about 72% of the finished products' value) and foreign and domestically-sourced electromagnetic clutches. The application indicates that 32 percent of the finished air-conditioner compressors' material value will be U.S. sourced within two years.

Zone procedures would exempt Seltec from Customs duty payments on the foreign components used in export activity (some 50% of shipments). On its domestic sales, Seltec would be able to elect the duty rate that applies to finished automotive air-conditioner compressors (2.0%) for the foreign electromagnetic clutches as they are processed for Customs entry, rather than the higher rate on electromagnetic clutches (3.6%). The motor vehicle duty rate (2.5%) could apply to the foreign electromagnetic clutches that are shipped as part of air-conditioner compressors to motor vehicle assembly plants with subzone status for inclusion into finished motor vehicles under FTZ procedures. The application indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is November 29, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to December 16, 1996).

A copy of the application will be available for public inspection at the following location: Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th Street and Pennsylvania Avenue, NW., Washington, DC 20230.

Dated: October 22, 1996.
