

Government agency which buys it, as well as by the Committee. The price the Government will pay, as the Committee's statute requires, reflects the market for this item, so a substantial price increase will not occur.

The contractor did not indicate how many jobs would actually be lost because of the Committee's action. The two organizations the contractor named do not participate in the Committee's program. However, several organizations in that area do participate in the program. While they will not be making the dustpan, they do generate employment for people with severe disabilities living in the contractor's area.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodity and impact of the addition on the current or most recent contractors, the Committee has determined that the commodity listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organization that will furnish the commodity to the Government.
2. The action does not appear to have a severe economic impact on current contractors for the commodity.
3. The action will result in authorizing a small entity to furnish the commodity to the Government.
4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodity proposed for addition to the Procurement List.

Accordingly, the following commodity is hereby added to the Procurement List:

Dustpan

This action does not affect current contracts awarded prior to the effective date of this addition or options that may be exercised under those contracts.
