

the comments of the AAMA and AIAM. At the meeting AIAM represented both organizations.

The majority of comments fell into one of two categories. The first category of comments related to requirements that were the result of other regulations as opposed to requirements specific to the Subpart MM New Source Performance Standard (NSPS). For example, completing an application for Title V is not covered by this ICR because it is not required by Subpart MM. This ICR pertains only to Subpart MM and not other regulations that apply to the auto manufacturing industry.

The second category of comments related to activities undertaken by the industry but not required by the regulation. Comments regarding performance audits, and conducting surveys and studies are examples of activities potentially performed by the industry but they are not required by Subpart MM and therefore not accounted for in the ICR.

As a result of the comments regarding the labor costs, EPA recalculated the tables using the updated labor rates provided by Department of Commerce, Bureau of Labor Statistics January 1996 Employment and Earnings Table.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 14.1 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 45.

Estimated Number of Respondents: 45.

Frequency of Response: 4.

Estimated Number of Responses: 180.

Estimated Total Annual Hour Burden: 2,540.3 hours.

Estimated Total Annualized Cost Burden: \$65,250.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing

respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1064.08 and OMB Control No. 2060-0034 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2136), 401 M Street, SW., Washington, DC 20460 and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

Dated: February 12, 1997.

Joseph Retzer,

Director, Regulatory Information Division.

Agency Information Collection Activities Under OMB Review; Standards of Performance for Flexible Vinyl and Urethane Coating and Printing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) for New Source Performance Standards for Flexible Vinyl and Urethane Coating and Printing described below has been forwarded to the Office of Management and Budget (OMB) for review and approval. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before March 24, 1997.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1175.05.

SUPPLEMENTARY INFORMATION:

Title: NSPS for Flexible Vinyl and Urethane Coating and Printing (OMB Control No. 2060-0073 expiration date 4/30/97; EPA ICR No.1175.05). This is a request for extension of a currently approved collection.

Abstract: The EPA is charged under Section 111 of the Clean Air Act, as amended, to establish standards of performance for new stationary sources that reflect:

* * * application of the best technological system of continuous

emissions reduction which (taking into consideration the cost * * * and energy requirements) the Administrator determines has been adequately demonstrated [Section 111(a)(1)].

In addition, Section 114(a) requires that any owner or operator subject to any Subpart to establish and maintain records, make reports, install, use and maintain monitoring equipment or methods as required, and provide other information as EPA may deem necessary.

In the Administrator's judgment, VOC emissions from flexible vinyl and urethane coating and printing industry cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Therefore, the New Source Performance Standards (NSPS) were promulgated for this source category. The NSPS for the Flexible Vinyl and Urethane Coating and Printing Industry were proposed on January 18, 1983, and promulgated on June 29, 1984. These standards apply to each rotogravure printing line used to print or coat flexible vinyl or urethane products, and for which construction, modification or reconstruction commenced after the date of proposal. Volatile organic compounds (VOCs) are the pollutants regulated under this Subpart. The standards restrict the use of inks to those with a weighted average VOC content of less than 1.0 kilogram VOC per kilogram of ink solids, unless the source can otherwise reduce emissions to the atmosphere by 85 percent.

The information requested as part of this rule include one-time-only notifications; records about the initial performance test, changes in the operation of the facility, and exceedences of parameters; and semiannual reports of those exceedences.

Notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. The reviewing authority may then inspect the source to check if the pollution control devices are properly installed and operated and the standard is being met. Performance test reports are needed as these are the Agency's record of a source's initial capability to comply with the emission standard, and note the operating conditions (temperature of exhaust gases, VOC concentrations, and temperature across the catalytic bed) under which compliance was achieved. The semiannual reports are used for problem identification, as a check on source operation and maintenance, and for compliance determinations.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 08/30/96 (61 FR 45959).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 36.75 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency.

Respondents/Affected Entities: Each applicable (modified, etc.) rotogravure printing line printing/coating flexible vinyl or urethane products plant.

Estimated Number of Respondents: 7.
Frequency of Response: 2/per facility/per year.

Estimated Total Annual Hour Burden: 514.5 hours.

Estimated Total Annualized Cost Burden: \$21,012.65.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No.1175.05 and OMB Control No. 2060-0073 in any correspondence. Send to the following addresses:

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460. Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: February 12, 1997.

Joseph Retzer,

Director, Regulatory Information Division.

Stine Microbial Products; Approval of a Pesticide Product Registration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of an application to

register the pesticide product Blue Circle Liquid Biological Fungicide, containing an active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(5) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: Denise Greenway, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. CS51B6, Westfield Building North Tower, 2800 Crystal Drive, Arlington, VA 22202, (703) 308-8263; e-mail: greenway.denise@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of this document and the Fact Sheet are available from the EPA home page at the Environmental Sub-Set entry for this document under "Regulations" (<http://www.epa.gov/fedrgstr/>).

EPA issued a notice, published in the Federal Register of October 9, 1996 (61 FR 52944; FRL-5397-1), which announced that Stine Microbial Products, 2225 Laredo Trail, Adel, IA 50003, had submitted an application to register the product Blue Circle Liquid Biological Fungicide (File Symbol 63950-A), containing the active ingredient *Burkholderia cepacia* type Wisconsin isolate J82 at 0.6 percent, an active ingredient not included in any previously registered product. The active ingredient concentration was subsequently corrected from 0.6 to 2 percent.

The application was approved on December 24, 1996, as Blue Circle Liquid Biological Fungicide (EPA Registration Number 63950-6), for application to food and nonfood plant and seedling roots.

The Agency has considered all required data on risks associated with the proposed use of *Burkholderia cepacia* type Wisconsin isolate J82, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of *Burkholderia cepacia* type Wisconsin isolate J82 when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

More detailed information on this registration is contained in an EPA Pesticide Fact Sheet on *Burkholderia cepacia* type Wisconsin isolate J82.

A copy of this fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the Product Manager. The data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

Authority: 7 U.S.C. 136.

List of Subjects

Environmental protection, Pesticides and pests, Product registration.

Dated: February 4, 1997.

Janet L. Andersen,

Director, Biopesticides and Pollution Prevention Division, Office of Pesticide Programs.
