ACTION: Notice.

SUMMARY: The information collection requirements listed below will be submitted to OMB for extension approval under the provisions of the Paperwork Reduction Act of 1995. Copies of specific information collection requirements, related forms, and

explanatory material may be obtained by contacting the Fish and Wildlife Service (Service) Information Collection Clearance Officer at the address and/or phone numbers listed below.

DATES: Comments must be submitted on or before May 12, 1997.

ADDRESSES: Comments and suggestions on specific requirements should be sent to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 224-ARLSQ; 1849 C Street, NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Phyllis H. Cook, Service Information Collection Clearance Officer at 703/358-1943; 703/358-2269 (fax).

SUPPLEMENTARY INFORMATION: The Service proposes to submit the following information collection requirements to OMB for review and extension approval under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Under the present clearance, all permit requirements were contained in one submission and they were assigned OMB Approval 1018-0022, the Federal Fish and Wildlife License/Permit Application and Related Reports, Service Form No. 3-200. In an attempt to make the application process and the comment process more "user friendly," similar types of permits have been grouped together and numbered. The application to apply for Service permits issued under Subchapter B of Title 50 of the Code of Federal Regulations (CFR) will still require completion of the 3-200 form. In addition to the permit application, attachments are often necessary to provide additional information required for specific types of permits, and have been assigned numbers also.

The information collected on the permit application and attachments will be used by the Service to review permit applications and allow the Service to make decisions, according to criteria

established in various Federal wildlife conservation statutes and regulations, on the issuance, suspension, revocation or denial of permits. The frequency of response for the following types of permit applications/licenses is on occasion, and all have been currently assigned OMB Control Number 1018-0022, unless otherwise noted.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs the potential persons who are to respond to such collections that they are not required to respond to the collection of information unless it displays a currently valid OMB control number.
