A copy of the comment that does not contain CBI must be provided by the submitter for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments filed pursuant to this notice will be available for public inspection in Rm. 1132, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, except legal holidays.

Office location, telephone number and e-mail: Floor 6, Crystal Station #1, 2800 Jefferson Davis Highway, Arlington, VA, (703) 308-8327; e-mail: deegan.dave@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Pursuant to section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), the Administrator may, at her discretion, exempt a state agency from any registration provision of FIFRA if she determines that emergency conditions exist which require such exemption. The Applicant has requested the Administrator to issue a specific exemption for the use of carbofuran on cotton to control aphids. Information in accordance with 40 CFR part 166 was submitted as part of this request.

As part of this request, the Applicant asserts that the state of Texas is likely to experience a non-routine infestation of aphids during the 1997 cotton growing season. The Applicant further claims that, without a specific exemption of FIFRA for the use of flowable carbofuran on cotton to control cotton aphids, cotton growers in much of the state will suffer significant economic losses. The Applicant also details a use program designed to minimize risks to pesticide handlers and applicators, non-target organisms (both Federally-listed endangered species, and non-listed species), and to reduce the possibility of drift and runoff.

The Applicant proposes to make no more than two applications of flowable carbofuran on cotton at the rate of 0.25 lb. active ingredient [(a.i.)] (8 fluid oz.) in a minimum of 2 gallons of finished spray per acre by air, or 10 gallons of finished spray per acre by ground application. The total maximum

proposed use during the 1996 growing season (April 1, 1997 until September 30, 1997) in Texas would be 0.5 lb. a.i. (16 fluid oz.) per acre. The Applicant proposes that the maximum acreage which could be treated under the requested exemption would be 1.8 million acres. If all acres were treated at the maximum proposed rates, then 900,000 lbs. a.i. (225,000 gallons Furadan 4F Insecticide/Nematicide) would be used.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 require publication of a notice of receipt of an application for a specific exemption proposing use of a chemical (i.e., an active ingredient) which has been the subject of a Special Review within EPA's Office of Pesticide Programs, and the proposed use could pose a risk similar to the risk assessed by EPA under the previous Special Review. Such notice provides for opportunity for public comment on the application.

A record has been established for this notice under docket number [OPP-1810040] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI is available for inspection from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

The public record is located in Room 1132 of the Public Response and Program Resource Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document. Accordingly, interested persons may submit written views on this subject to the Field Operations Division at the address above.

The Agency, accordingly, will review and consider all comments received during the comment period in determining whether to issue the emergency exemption requested by the Texas Department of Agriculture.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections being Reviewed by the Federal Communications Commission

March 14, 1997.

SUMMARY: The Federal Communications Commissions, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments May 19, 1997.

ADDRESSES: Direct all comments to Dorothy Conway, Federal Communications Commissions, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to dconway@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Dorothy Conway at 202-418-0217 or via internet at dconway@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number 3060-0757.

Title: Auctions Customer Survey.

Type of Review: Extension of an existing collection.

Respondents: Businesses or other for-profit entities.

Number of Respondents: 45,000.

Estimated Time for Response: .25 hours.

Total Annual Burden: 11,250 hours (.25 x 45,000 responses).

Total Cost to Respondents: 0.

Needs and Uses: Section 309(j)(3) of the Communications Act requires the Commission to establish a competitive bidding methodology for each class of licenses or permits that the Commission grants through the use of a competitive bidding system. The Commission is further directed to test alternative methodologies under appropriate circumstances in order to promote, among other things, "the development and rapid deployment of new technologies, products, and services for the benefit of the public, including those residing in rural areas, without administrative or judicial delays." The Commission is directed likewise to promote "economic opportunity and competition and ensuring that new and innovative technologies are readily accessible to the American people by avoiding excess concentration of licenses and by disseminating licenses among a wide variety of applicants, including small businesses, rural telephone companies and businesses owned by members of minority groups and women," and by encouraging "efficient and intensive use of the electromagnetic spectrum." In addition, Section 309(j)(12) requires the Commission to evaluate the methodologies established by the Commission for conducting competitive bidding, comparing the advantages and disadvantages of such methodologies in terms of attaining these objectives.

The FCC Auctions Customer Survey is an important step in meeting these congressional requirements. By seeking input from auction participants, the Commission is gathering information to evaluate the effectiveness of competitive bidding methodologies used to date, and to improve the competitive bidding methodologies used in future auctions. Finally, the Auctions Customer Survey provides useful feedback in determining the extent to which the Commission is meeting its goal of providing participants in competitive bidding with the highest level of customer satisfaction through information dissemination and the responsiveness of the Commission staff to customer inquiries.

Federal Communications Commission.

William F. Caton,

Acting Secretary.
