**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Office of the Secretary**

**Notice of Interest Rate on Overdue Debts**

Section 30.13 of the Department of Health and Human Services' claims collection regulations (45 CFR Part 30) provides that the Secretary shall charge an annual rate of interest as fixed by the Secretary of the Treasury after taking into consideration private consumer rates of interest prevailing on the date that HHS becomes entitled to recovery. The rate generally cannot be lower than the Department of Treasury's current value of funds rate or the applicable rate determined from the "Schedule of Certified Interest Rates with Range of Maturities." This rate may be revised quarterly by the Secretary of the Treasury and shall be published quarterly by the Department of Health and Human Services in the **Federal Register**.

The Secretary of the Treasury has certified a rate of 13½ percent for the quarter ended March 31, 1997. This interest rate will remain in effect until such time as the Secretary of the Treasury notifies HHS of any change.

Dated: April 15, 1997.

**Shirl A. Ruffin**,

*Acting Deputy Assistant Secretary, Finance.*

**Agency Forms Undergoing Paperwork Reduction Act Review**

The Centers for Disease Control and Prevention (CDC) publishes a list of

information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Office on (404) 639-7090. Send written comments to CDC, Desk Officer; Human Resources and Housing Branch, New Executive Office Building, Room 10235; Washington, DC 20503. Written comments should be received within 30 days of this notice.

**Proposed Project**

1. State-Based Evaluation of Trends and Risk Factors in Morbidity and Mortality from Sickle Cell Disease After Newborn Screening—New—Children with sickle cell disease are at increased risk for mortality and morbidity, especially in the first three years of life. The need for early diagnosis and preventive medical intervention is the rationale for newborn hemoglobinopathy screening programs, now operating in more than 40 states. Although clinical trials have clearly demonstrated the efficacy of early medical intervention, more information is needed regarding the actual utilization of available therapies and preventive measures in large populations, health statuses of children identified by newborn screening programs, and risk factors for adverse health outcomes. Potential risk factors include extent of medical care follow-up, location of treatment, the use of penicillin prophylaxis, immunization patterns, as well as parental social, demographic and educational factors. In FY 1995, CDC awarded \$150,000 to three state health departments to assist in their efforts to ascertain health status and risk factors for young children with sickle cell disease. States will be using these funds to obtain information about individual children through structured questionnaires directed toward their parents and physicians. The total annual burden hours are 840.

Respondents	No. of respondents	No. of responses/respondent	Avg. burden/response (in hrs.)	Total burden (in hrs.)
Parents .....	840	1	.5	420
Physicians .....	840	1	.5	420
