Office of the Secretary
Findings of Scientific Misconduct
AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) has made a final finding of scientific misconduct in the following case:

Weidong Sun, M.D., Ph.D., Medical College of Pennsylvania and Hahnemann University: Based upon a report forwarded to the Office of Research Integrity (ORI) by the Medical College of Pennsylvania and Hahnemann University as well as information obtained by ORI during its oversight review, ORI found that Dr. Sun, a former graduate student in the Department of Physiology, Medical College of Pennsylvania and Hahnemann University, engaged in scientific misconduct by falsifying data in conducting and reporting research supported by a grant from the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS), National Institutes of Health (NIH). The research also was reported in applications requesting funding from NIAMS and the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK), NIH.

Specifically, Dr. Sun falsified data by misrepresenting cloned DNA sequences from chicken non-muscle myosin as an isoform of neuronal myosin II from rat brain. The falsified cDNA was included in the following publications and nucleotide sequences in GenBank and EMBL databases:

- Sun, W.D., & Chantler, P.D. "Cloning of the cDNA encoding a neuronal myosin heavy chain from mammalian brain and its differential expression within the central nervous system." *Journal of Molecular Biology* 224(4):1185-1193, 1992;
- Sun, W.D., & Chantler, P.D. "A unique cellular myosin II exhibiting differential expression in the cerebral cortex." *Biochemical and Biophysical Research Communications* 175(1):244-249, 1991;
- Sun, W., Chen, X., & Chantler, P.D. "Inhibition of neurogenesis by antisense arrest of the expression of a specific isoform of brain myosin II." *Journal of Muscle Research and Cell Motility* 15:184-185, 1994;
- M64596, "Rat myosin II mRNA, 3' end." [RETMYOSII];
- M80591, "Rat neuronal myosin heavy chain mRNA, 3' end." [RATMYOH3E];

- M94962, "Rattus rattus neuronal myosin heavy chain gene promoter sequence." [RATMYOPRO]; and
- X62659, S98128, "R.rattus MRNA for brain neuronal myosin heavy chain." [RRNMYOHC].

Retractions of the publications and deletions from the public data banks have been requested.

Dr. Sun has accepted the ORI finding and has entered into a Voluntary Exclusion Agreement with ORI in which he has voluntarily agreed, for the three (3) year period beginning April 17, 1997:

(1) To exclude himself from any contracting or subcontracting with any agency of the United States Government and from eligibility for, or involvement in, nonprocurement transactions (e.g., grants and cooperative agreements) of the United States Government as defined in 45 CFR part 76 (Debarment Regulations); and

(2) To exclude himself from serving in any advisory capacity to the Public Health Service (PHS), including but not limited to service on any PHS advisory committee, board, and/or peer review committee, or as a consultant.
