Notice of Realty Action; Recreation and Public Purposes (R&PP) Act Classification; California

AGENCY: Bureau of Land Management.

ACTION: Notice.

SUMMARY: The following public lands in Kern County, California have been examined and found suitable for classification for conveyance to the County of Kern under the provisions of the Recreation and Public Purposes Act, as amended (43 U.S.C. 869 et seq.). The lands will not be offered for conveyance until at least 60 days after publication of this notice in the **Federal Register**.

Mount Diablo Meridian

T. 25 S., R. 33 E.

Section 35
S $\frac{1}{2}$ S $\frac{1}{2}$ S $\frac{1}{2}$ N $\frac{1}{2}$ N $\frac{1}{2}$ SW $\frac{1}{4}$
Containing 120 acres.
AP# 296-070-18

The County of Kern has filed applications to purchase a 120-acre parcel of public land occupied by an existing landfill and where buffer areas and a transfer station will be constructed. The landfill will be closing in 1997 concurrently with construction of the transfer station and the buffer areas. The transfer station will handle non-hazardous solid waste from residential, commercial and industrial sources.

The lands are not needed for Federal purposes. Conveyance is consistent with current BLM land use planning and would be in the public interest.

The patent will be subject to the following terms, conditions, and reservations:

1. Provisions of the Recreation and Public Purposes Act and to all applicable regulations of the Secretary of the Interior.

2. A right-of-way for ditches and canals constructed by the authority of

the United States; Act of August 30, 1890 (26 Stat. 391; 43 U.S.C. 945).

3. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals.

4. All valid existing rights documented on the official public land records at the time of patent issuance.

5. Any other reservations that the authorized officer determines appropriate to ensure public access and proper management of Federal lands and interests therein.

Detailed information concerning this action is available for review at the office of the Bureau of Land Management, Bakersfield Field Office, 3801 Pegasus Drive, Bakersfield, California.

Upon publication of this notice in the **Federal Register**, the lands will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for conveyance under the Recreation and Public Purposes Act and leasing under the mineral leasing laws. For a period of 45 days from the date of publication of this notice, until July 26, 1997, interested persons may submit comments regarding the proposed conveyance or classification of the lands to the Field Office Manager, Bakersfield Field Office, 3801 Pegasus Drive, Bakersfield, CA 93308.

Classification Comments

Interested parties may submit comments involving the suitability of the land for a transfer station, landfill and buffer area. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

Application Comments

Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not directly related to the suitability of the land for a transfer station, landfill and buffer area.

Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the classification will become effective 60 days from the date of publication of this notice in the **Federal Register**.

Dated: April 22, 1997.

National Park Service

General Management Plan/ Environmental Impact Statement for Lake Roosevelt National Recreation Area, Washington

AGENCY: National Park Service, Interior.

ACTION: Notice of intent to prepare an Environmental Impact Statement.

SUMMARY: The National Park Service (NPS) will prepare a General Management Plan/Environmental Impact Statement (GMP/EIS) for the Lake Roosevelt National Recreation Area (formerly Coulee Dam National Recreation Area). The GMP will set forth the basic management philosophy for the next 15-20 years. The NPS will be working closely with representatives of the Colville and Spokane Indian Tribes; the Washington counties of Ferry, Grant, Lincoln, Okanogan, and Stevens; the Bureau of Reclamation; the Bureau of Indian Affairs; the State of Washington; and concerned organizations and private citizens.

Among the major issues likely to be addressed in the Lake Roosevelt GMP/EIS are resource protection, visitor activities, visitor use and levels, development, support facilities, and operations. A full range of alternatives, including "no action" and "minimum requirements" alternatives, will be considered in the GMP/EIS to address these and other issues that may emerge during the planning process.

Scoping, the process by which the scope of issues to be addressed in the

GMP/EIS is identified, will be conducted through a public newsletter and public meetings held during the summer of 1997. Meeting dates, locations, and times will be announced through local media. Representative of Federal, State and local agencies, American Indian tribes, private organizations and individuals from the general public are invited to participate in the scoping process by responding to this notice with written comments. All comments received will become part of the public record and copies of comments, including any names, addresses and telephone numbers provided by respondents, may be released for public inspection. The draft GMP/EIS is expected to be available for public review by September 1998, with the final version of the GMP/EIS and the Record of Decision to be completed by September 1999.

Because the responsibility for approving the GMP/EIS has been delegated to the NPS, the EIS is a "delegated" EIS. The responsible official is Stanley T. Albright, Regional Director, Pacific West Region, National Park Service.

DATES: Written comments about the scope of issues to be analyzed in the GMP/EIS should be received no later than September 30, 1997.

ADDRESSES: Written comments and requests for information concerning the GMP/EIS should be sent to Vaughn Baker, Superintendent, Lake Roosevelt National Recreation Area, 1008 Crest Drive, Coulee Dam, WA 99116-1259, or at telephone number (509) 663-9411.

Dated: April 21, 1997.

William C. Walters,

Deputy Regional Director, Pacific West Region, National Park Service.
