#### Proposed Collection; Comment Request

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the "National Longitudinal Survey of Youth 1979 (NLSY79)." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the addressee section of this notice.

**DATES:** Written comments must be submitted to the office listed in the addressee section below on or before July 1, 1997.

The Bureau of Labor Statistics is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

**ADDRESSES:** Send comments to Karin G. Kurz, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 3255, 2 Massachusetts Avenue, NE., Washington, DC 20212. Ms. Kurz can be reached on 202-606-7628 (this is not a toll free number).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The National Longitudinal Survey of Youth79 (NLSY79) has been conducted since 1979. It consists of a nationally representative sample of individuals who were age 14 to 21 in 1979. The cohort members were interviewed annually from 1979 to 1994. After the 1994 interview, the survey was moved to a biennial cycle.

The data collected by the NLSY79 will contribute to the knowledge about labor market processes involved in transitions between jobs, job searches, and hierarchies within jobs. Survey data will contribute to the knowledge about individuals' ability to succeed in the job market and how levels of success relate to educational attainment, vocational training, prior occupational experiences, and general and job-specific experiences.

The NLSY79 research contributes to the formation of national policy in the areas of education, training and employment programs, and unemployment compensation. In addition, members of the academic community publish articles and reports based on these NLSY79 data for the Department of Labor (DOL) and other funding agencies. The DOL uses the changes measured in the labor market to design programs that would ease employment and unemployment problems. The survey design provides data gathered over time to form the only data set that contains this information. Without the collection of these data, an

accurate longitudinal data set could not be provided to researchers and policy-makers, and the DOL could not perform its policy- and report-making activities, as described above.

## II. Current Actions

The 1998 NLSY79 will document work experience, labor force attachment, participation in educational or training programs, financial situations, health status and health benefits. It will continue to gather detailed work history information along with information about family background and ongoing demographic events.
