BILLING CODE 6718-05-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Part 1831

Revision to the NASA FAR Supplement To Delete Class Deviation

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: This action deletes the class deviation from the cost principle at 1831.205-18 on independent research and development (IR&D).

EFFECTIVE DATE: May 16, 1997.

FOR FURTHER INFORMATION CONTACT: Mr. Joseph LeCren, Code HK, (202) 358-0444, fax (202) 358-2-3220, or e-mail joseph.lecren@hq.nasa.gov.

SUPPLEMENTARY INFORMATION:

Background

NASA published a class deviation as a final rule in the **Federal Register** (59 FR 46359-46360) September 8, 1994. The class deviation eliminated the provision at FAR 31.205-18(e) against the treatment of contractor IR&D contributions under NASA cooperative arrangements as allowable indirect costs. A FAR case was initiated to revise the IR&D cost principle to remove that provision at 31.205-18(e). A final FAR rule was published in the **Federal Register** (62 FR 12704-12705) March 17, 1997, making that revision. The publication of the revised FAR cost

principle eliminates the need for the NASA class deviation. The revised FAR cost principle is effective May 16, 1997.

Impact

NASA certifies that this change to its regulations will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This change does not impose any reporting or recordkeeping requirements subject to the Paperwork Reduction Act.

List of Subjects in 48 CFR Part 1831

Government procurement.

Tom Luedtke,

Deputy Associate Administrator for Procurement.

Accordingly, 48 CFR 1831 is amended as follows:

PART 1831—CONTRACT COST PRINCIPLES AND PROCEDURES

1. The authority citation for 48 CFR 1831 continues to read as follows:

Authority: U.S.C. 2473(c)(1).

§ 1831.205-18 [Removed]

2. Section 1831.205-18 is removed.

RIN 0648-XX77

Threatened Fish and Wildlife; Change in Listing Status of Steller Sea Lions Under the Endangered Species Act

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: The Steller sea lion, *Eumetopias jubatus*, is currently listed as threatened, pursuant to the Endangered Species Act (ESA), throughout its range, which extends from California and associated waters to Alaska, including the Gulf of Alaska (GOA) and Aleutian Islands, and into the Bering Sea and North Pacific and into Russian waters and territory. Based on biological information collected since the species was listed as threatened in 1990, NMFS is now reclassifying Steller sea lions as two distinct population segments under the ESA. The Steller sea lion population segment west of 144 °W. long. (a line near Cape Suckling, AK) is reclassified as endangered; the threatened listing is being maintained for the remainder of the U.S. Steller sea lion population.

EFFECTIVE DATE: June 4, 1997.

ADDRESSES: Requests for copies of this rule or a complete list of references should be addressed to the Director, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910
