

Notice was published on March 21, 1997 (62 FR 13601) that a request had been filed by Mary L. Moser and Steve W. Ross (P423B), to modify scientific research permit 984, to take listed shortnose sturgeon, as authorized by the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-222).

Drs. Moser and Ross are authorized under Permit 984 to weigh, measure, photograph, tag and tissue sample adult shortnose sturgeon in North Carolina Rivers. Modification 1, issued by NMFS on May 1, 1997, extends Permit 984 until December 31, 2000, removes authorization to conduct research in the Alligator and Chowan Rivers, and authorizes research in the Pee Dee and Waccamaw Rivers.

On April 29, 1997, Molly Lutcavage of the New England Aquarium submitted an application (P645) for a scientific research permit to take listed sea turtles. Dr. Lutcavage has requested a one year permit to satellite tag eight (8) listed leatherback (*Dermochelys coriacea*) turtles captured incidental in commercial fisheries to determine vulnerability of leatherbacks to incidental capture by pelagic longline fisheries; to relate specific travel routes of leatherback turtles equipped with satellite transmitters to fishing activities and oceanographic features; to assist pelagic fishermen in the development of fishing techniques that reduce interactions with leatherback turtles; and to develop safe handling procedures and satellite attachment techniques.

Issuance of these permits/modifications, as required by the ESA, was based on a finding that such permits/modifications: (1) Were applied for in good faith, (2) will not operate to the disadvantage of the listed species that are the subject of the permits/modifications, and (3) are consistent with the purposes and policies set forth in section 2 of the ESA.

Title: Stars and Stripes Audience Survey.

Needs and Uses: The information collection requirements is necessary to evaluate current Stars and Stripes newspaper policies and practices, and provide information on demographics and consumer habits of Stars and Stripes readers for use in marketing initiatives.

Affected Public: Department of Defense civilian employees and their families living in the European and Pacific theaters served by the Stars and Stripes.

Annual Burden Hours: 1,200.

Number of Respondents: 3,000.

Responses per Respondents: 1.

Average Burden per Response: 24 minutes.

Frequency: Triennially.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Respondents are Department of Defense civilian employees and their families living in areas served by the Stars and Stripes newspapers. As the last similar survey was conducted in 1990, no current information exists on the Stars and Stripes readership. In order to serve effectively its audience the Stars and Stripes needs current information on reader demographics, preferences, opinions and purchasing habits. This information will assist in evaluating current policies and practices, provide guidance on potential changes in current activities, and guide future activities in the areas of circulation and advertising.
