

The draft EIS/EIR will focus on the impacts and benefits of implementing the various alternatives. It will contain an analysis of the physical, biological, social, and economic impacts arising from the alternatives. In addition, it will address the cumulative impacts of implementation of the alternatives in conjunction with other past, present, and reasonably foreseeable actions.

Reclamation and EBMUD have been seeking public input on alternatives, concerns, and issues to be addressed in the EIS/EIR through a series of scoping meetings held from April 28 through May 1, 1997 in Sacramento, Oakland, Lodi, and Galt, California. EBMUD conducted an extensive public notification program to assure that all interested parties were notified in advance about these meetings.

Dated: April 28, 1997.

Kirk C. Rodgers,

Deputy Regional Director.
