

or exporters not covered in these reviews but covered in the original LTFV investigation or a previous review, the cash deposit will continue to be the most recent rate published in the final determination or final results for which the manufacturer or exporter received a company-specific rate; (3) if the exporter is not a firm covered in these reviews, or the original investigation, but the manufacturer is covered, the cash deposit rate will be that established for the manufacturer of the merchandise in the final results of these reviews, or the LTFV investigation; and (4) if neither the exporter nor the manufacturer is a firm covered in these or any previous reviews, the cash deposit rate will be 15.92 percent, the "all-others" rate based on the first review conducted by the Department in which a "new shipper" rate was established in the final results of antidumping administrative review (48 FR 51801, November 14, 1983). These requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: April 30, 1997.

Robert S. LaRussa,

Acting Assistant Secretary for Import Administration.

Silicomanganese From Brazil; Extension of Time Limit of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit.

SUMMARY: The Department of Commerce (the Department) is extending the time limit for the final results of the 1994-95 administrative review of the antidumping duty order on silicomanganese from Brazil. The Department has determined that it is not practicable to complete this review within the time limits mandated by section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act). The review covers exports of this merchandise to the United States by one manufacturer/exporter, Companhia Paulista de Ferro-Ligas (CPFL) and Sibra Eletro-Siderurgica Brasileira S.A. (Sibra) (collectively "Ferro-Ligas Group"), for the period June 17, 1994 through November 30, 1995.

EFFECTIVE DATE: May 8, 1997.

FOR FURTHER INFORMATION CONTACT: Hermes Pinilla or Thomas O. Barlow, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-4733.

SUPPLEMENTARY INFORMATION:

Applicable Statute

Unless otherwise indicated, all citations to the Act are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act (URAA).

Background

On January 9, 1997, the Department published in the **Federal Register** (62 FR 1320) the preliminary results of 1994-95 administrative review of the antidumping duty order on silicomanganese from Brazil (59 FR 66003, December 22, 1994). The period of review (POR) is June 17, 1994 through November 30, 1995. In our notice of preliminary results of review we stated that we intended to publish the final results of this review within 120 days of publication of the preliminary results.

Postponement of Final Results of Review

Section 751(a)(3)(A) of the Act requires the Department to make a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within the foregoing time, the Department may extend the 120 day period for making a final determination to 180 days.

We determine that it is not practicable to issue the final results of this review within the 120-days for the reasons contained in the Memorandum from Richard W. Moreland to Robert S. LaRussa, April 30, 1997, on file in Room B-099 of the Main Commerce Building.

Accordingly, we are extending the deadline for making our final determination and issuing the final results in this review. We intend to issue the final results of review by July 8, 1997, which is 180 days after the publication of our preliminary results. This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: April 30, 1997.

Richard W. Moreland,

Acting Deputy Assistant Secretary for AD/CVD Enforcement.

Steel Wire Rod From Canada, Germany, Trinidad and Tobago, and Venezuela; Extension of Time Limit for countervailing duty investigations

AGENCY: International Trade Administration/Import Administration/Department of Commerce.

ACTION: Notice of extension of time limit for countervailing duty investigations.

SUMMARY: The Department of Commerce (the Department) is extending the time limits for its preliminary determinations in the countervailing duty investigations on steel wire rod from Canada, Germany, Trinidad and Tobago, and Venezuela.

EFFECTIVE DATE: May 8, 1997.

FOR FURTHER INFORMATION CONTACT: Robert Bolling (Canada), Daniel Lessard (Germany), Vince Kane (Trinidad and Tobago) and Chris Cassel (Venezuela), Import Administration, International Trade Administration, U.S. Department of Commerce, Room 3099, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230; telephone: (202) 482-1386, 482-1778, 482-2815, and 482-4847.

SUPPLEMENTARY INFORMATION: At the request of the petitioners, the Department is extending the time limit for the completion of the preliminary determinations to no later than July 28, 1997, in accordance with section 703(c)(1)(A) of the Tariff Act of 1930 (the Act), as amended by the Uruguay

Round Agreements Act (URAA). (See Memorandum from Joseph A. Spetrini, Richard W. Moreland, and Jeffrey P. Bialos to Robert S. LaRussa on file in the public file of the Central Records Unit, Room B-099 of the Department of Commerce).

These extensions are in accordance with section 703(c)(1)(A) of the Act (19 U.S.C. 1675(a)(3)(A)).

Dated: May 2, 1997.

Jeffrey P. Bialos,

Principal Deputy Assistant Secretary for Import Administration.

National Institute of Standards and Technology

Notice of a Government Owned Invention Available for Licensing

SUMMARY: The invention listed below is owned by the U.S. Government, as represented by the Department of Commerce, and is available for licensing on only a non-exclusive basis in accordance with 35 U.S.C. 207 and 37 CFR Part 404 to achieve expeditious commercialization of results of federally funded research and development.

FOR FURTHER INFORMATION CONTACT: Technical and licensing information on this invention may be obtained by writing to: National Institute of Standards and Technology, Industrial Partnerships Program, Building 820, Room 213, Gaithersburg, MD 20899; Fax 301-869-2751. Any request for information should include the NIST Docket No. and Title for the relevant invention as indicated below.

SUPPLEMENTARY INFORMATION: NIST may enter into one or more Cooperative Research and Development Agreements ("CRADA") with the licensees to perform further research on the invention for purposes of commercialization. NIST may grant licensees an option to negotiate for exclusive royalty-bearing licenses to any jointly owned inventions which arise from the CRADAs as well as an option to negotiate for exclusive royalty-bearing licenses for NIST employee inventions which arise from the CRADAs.

The invention available for licensing is:

NIST Docket Number: 96-009.

Title: Interferometric Thickness Variation Test Method For Windows and Sili.

Abstract: This interferometric apparatus and non-contact method

measure central thickness and thickness variations of silicon wafers and other window-like optics by using a diverging wavefront and an infrared interferometer operating at a wavelength to which silicon is transparent. The speed and accuracy of the invention offer cost-effective measurements of 300 mm wafers.

Dated: May 1, 1997.

Elaine Bunten-Mines,

Director, Program Office.

Title: Superconducting Transition-Edge Sensor.

Abstract: This NIST invention provides particle detection, particularly x-ray detection, using an aluminum/normal-metal bilayer superconducting transition-edge sensor as a thermometer in a microcalorimeter. Fabrication is easier, applications are more diverse, and results are more reliable than with previous methods.

Visiting Committee on Advanced Technology

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice of partially closed meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, 5 U.S.C. app. 2, notice is hereby given that the National Institute of Standards and Technology's Visiting Committee on Advanced Technology (NIST) will meet on Tuesday, June 3, 1997, from 8:30 a.m. to 5:00 p.m. The Visiting Committee on Advanced Technology is composed of 15 members appointed by the Director of the National Institute of Standards and Technology who are eminent in such fields as business, research, new product development, engineering, labor, education, management consulting, environment, and international relations. The purpose of this meeting is to review and make recommendations regarding general policy for the Institute, its organization, its budget, and its programs within the framework of applicable national policies as set forth by the President and the Congress. The agenda will include presentations on NIST programs, including an action plan to respond to the Technology Transfer Act of 1995, the status of the NIST effort to update its facilities needs assessment and the progress on developing a new master plan for the Gaithersburg and Boulder sites, NIST Budget, and a laboratory tour.

Discussions on the NIST budget, including funding levels of the Applied Technology Program (ATP), and the staffing of management positions at NIST scheduled to begin at 4:15 p.m. and to end at 5:00 p.m. on June 3, 1997, will be closed.

DATES: The meeting will convene June 3, 1997, at 8:30 a.m. and will adjourn at 5:00 p.m. on June 3, 1997.

ADDRESS: The meeting will be held in the Radio Building, Room 1107 (seating capacity 60, includes 35 participants), National Institute of Standards and Technology, Boulder, CO.

FOR FURTHER INFORMATION CONTACT: Chris E. Kuyatt, Executive Director, Visiting Committee on Advanced Technology, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301) 975-6090.
