[NAFTA-01640]

Renee Jabbour Manufacturing Incorporated, Allentown, Pennsylvania; Notice of Termination of Investigation

Pursuant to Title V of the North American Free Trade Agreement Implementation Act (P.L. 103-182) concerning transitional adjustment assistance, hereinafter called (NAFTA-TAA), and in accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), an investigation was initiated on May 1, 1997 in response to a petition filed on behalf of workers at Renee Jabbour Manufacturing Incorporated, Allentown, Pennsylvania.

This case is being terminated because the workers were separated from the subject firm more than one year prior to the date of the petition. The NAFTA Implementation Act specifies that no certification may apply to any worker whose last separation occurred more than one year before the date of the petition. Consequently further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, D.C., this 15th day of May 1997.

Russell T. Kile,

Program Manager Policy, and Reemployment Services, Office of Trade Adjustment Assistance.

[TA-W-33,276 and NAFTA-01510]

Square D Company Schneider North America Milwaukee, WI; Notice of Affirmative Determination Regarding Application for Reconsideration

By letter of April 22, 1997, the International Brotherhood of Electrical Workers, AFL-CIO, Local 2336, requested administrative reconsideration of the Department of Labor's Notices of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance (TA-W-33,276) and NAFTA-Transitional Adjustment Assistance (NAFTA-01510) for workers of the subject firm. The denial notice for TA-

W-33,276 was signed on March 28, 1997, and published in the **Federal Register** on April 15, 1997 (62 FR 18361). The denial notice for NAFTA-01510 was signed on March 28, 1997, and published in the **Federal Register** on April 15, 1997 (62 FR 18362).

The petitioner claims that the company has continued to shift production of low voltage transformers from Milwaukee to Mexico.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, D.C. this 13th day of May 1997.

Russell T. Kile,

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

DEPARTMENT OF LABOR**Employment and Training Administration**

[NAFTA-01511 and NAFTA-01511A]

Sunbeam Corporation Personal Care and Comfort Products Division McMinnville, Tennessee and Sunbeam Corporation Oster Professional Products Division McMinnville, Tennessee; Amended Certification Regarding Eligibility To Apply for NAFTA Transitional Adjustment Assistance

In accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 USC 2273), the Department of Labor issued a Certification for NAFTA Transitional Adjustment Assistance on April 10, 1997, applicable to all workers of Sunbeam Corporation, Professional Products Division, in McMinnville, Tennessee. The notice was published in the **Federal Register** on May 9, 1997 (62 FR 25660).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The findings show that worker separations did occur in April, 1997 when production at Sunbeam's Personal Care and Comfort Products Division and Oster Professional Products Division was shifted from the McMinnville, Tennessee location to Mexico City, Mexico. The workers were engaged in the production of clippers and trimmers

for personal and pet use. Accordingly, the Department is amending the certification to cover workers at the subject firm's Personal Care and Comfort Products Division. The Department is also amending the name and number for the Professional Products Division of Sunbeam Corporation in McMinnville, Tennessee to specify the Oster Professional Products Division and NAFTA-01511A instead of NAFTA-01511.

The intent of the Department's certification is to include all workers of Sunbeam Corporation who were adversely affected by imports from Mexico.

The amended notice applicable to NAFTA-01511 is hereby issued as follows:

All workers of Sunbeam Corporation, Personal Care and Comfort Products Division, McMinnville, Tennessee (NAFTA-01511) and Sunbeam Corporation, Oster Professional Products Division, McMinnville, Tennessee (NAFTA-01511A) who became totally or partially separated from employment on or after February 10, 1996 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of May, 1997.

Russell T. Kile,

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES**National Endowment for the Arts; Combined Arts Panel Meeting**

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Combined Arts Advisory Panel, Dance Section (Heritage & Preservation and Education & Access categories) to the National Council on the Arts will be held on June 19 and 20, 1997. The panel will meet from 9:00 a.m. to 7:00 p.m. on June 19 and 20, in Room 716, at the Nancy Hanks Center, 1100 Pennsylvania Avenue, N.W., Washington, D.C. 20506.

A portion of this meeting, from 9:00 a.m. to 11:00 a.m. on June 20, will be open to the public for a policy discussion. The remaining portions of this meeting, from 9:00 a.m. to 7:00 p.m. on June 19 and from 11:00 a.m. to 4:00 p.m., are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National

Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman of March 31, 1997, these sessions will be closed to the public pursuant to subsection (c)(4), (6) and (9)(b) of section 552b of Title 5, United States Code.

Any person may observe meetings, or portions thereof, of advisory panels which are open to the public, and may be permitted to participate in the panel's discussion at the discretion of the panel chairman and with the approval of the full-time Federal employee in attendance.

If you need special accommodations due to a disability, please contact the Office of AccessAbility, National Endowment for the Arts, 1100 Pennsylvania Avenue, N.W., Washington, D.C. 20506, 202/682-5532, TDY-TDD 202/682-5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Kathy Plowitz-Worden, Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202/682-5691.

Dated: May 22, 1997.

Kathy Plowitz-Worden,

*Panel Coordinator, Panel Operations,
National Endowment for the Arts.*

BILLING CODE 7537-01-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-272 and 50-311]

Public Service Electric and Gas Company; Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License Nos. DPR-70 and DPR-75 issued to Public Service Electric & Gas Company (the licensee) for operation of Salem Nuclear Generating Station, Units 1 and 2, located in Salem County, New Jersey.

The proposed amendments would revise Technical Specification (TS) Surveillance Requirement 4.7.6.1.d.1 to indicate that the specified acceptance

filter differential pressure (DP) is to be measured across the filter housing and to change the filter DP acceptance value from ≤ 3.5 inches water gauge to ≤ 2.70 inches water gauge.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) Involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. The proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

The [Control Room Emergency Air Conditioning System] CREACS filter train is provided for post-accident atmospheric cleanup of the control room air volume in order to limit doses to control room personnel to less than the limits prescribed by 10CFR50, Appendix A, Criterion 19.

The CREACS does not communicate with the Reactor Coolant System (RCS) and does not penetrate the Containment. The environmental controls portion of the system (i.e., cooling coil, fans, ductwork and associated dampers, and filtration capability) are not affected by the proposed changes. Therefore, control room temperature, humidity, air distribution and cleanliness requirements will continue to be maintained within acceptance limits. As such, the probability of an accident previously evaluated is unchanged.

The change to the Surveillance Test boundary requires that the pressure drop across all elements in the filter train be evaluated, thereby ensuring that the CREACS filter is maintained in a condition which would not restrict post-accident CREACS flow below acceptable levels. The change to the filter DP acceptance limit reallocates design margin associated with filter performance to CREACS fan performance in the control room pressurization mode. As such,
