

duty administrative review, and revocation of antidumping duty order.

SUMMARY: On March 26, 1997, the Department of Commerce (the Department) initiated a changed circumstances antidumping administrative review of the antidumping duty order on high-tenacity rayon filament yarn from Germany and issued the preliminary results of this review expressing an intent to revoke the order. We received no comments regarding the preliminary results. We are now revoking the order based on the fact that the order is no longer of interest to domestic interested parties.

EFFECTIVE DATE: May 30, 1997.

FOR FURTHER INFORMATION CONTACT: Matthew Blaskovich or Jim Terpstra, AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-5831/3965.

SUPPLEMENTARY INFORMATION:

Background

On January 7, 1997, the North American Rayon Corporation (petitioner) requested that the Department conduct a changed circumstances administrative review to determine whether to revoke the order on high-tenacity rayon filament yarn from Germany (57 FR 29062, June 30, 1992). Petitioner states that it has no further interest in the order.

Based on available information and petitioner's affirmative statement of no interest, we preliminarily determined, pursuant to 19 CFR 353.25(d)(2), to conduct a changed circumstances review. Consequently, on March 26, 1997, we published a notice of initiation and preliminary results of changed circumstances antidumping duty administrative review (62 FR 14398), in which we preliminarily determined to revoke this order. We gave interested parties an opportunity to comment on the preliminary results of this changed circumstances review. We received no comments.

Scope of the Review

The product covered by this administrative review is high-tenacity rayon filament yarn from Germany. During the review period, such merchandise was classifiable under Harmonized Tariff Schedule (HTS) item number 5403.10.30.40. High-tenacity rayon filament yarn is a multifilament single yarn of viscose rayon with a twist of five turns or more per meter, having

a denier of 1100 or greater, and a tenacity greater than 35 centinewtons per tex. The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive as to the scope of the product coverage. This changed circumstances administrative review covers all manufacturers/exporters of high-tenacity rayon filament yarn from Germany.

Final Results of Review: Revocation of Antidumping Duty Order

The lack of further interest by domestic interested parties constitutes changed circumstances sufficient to warrant revocation of this order. See 19 CFR 353.25(d)(1)(i). Therefore, we are revoking the order on high-tenacity rayon filament yarn from Germany, in accordance with sections 751 (b) and (d) and 782(h) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 353.25(d)(1)(i). This revocation applies to all entries of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after June 1, 1995, consistent with petitioner's request.

The Department will instruct the U.S. Customs Service (Customs) to proceed with liquidation, without regard to antidumping duties, of all unliquidated entries of high-tenacity rayon filament yarn from Germany entered, or withdrawn from warehouse, for consumption on or after June 1, 1995, in accordance with 19 CFR 353.25(d)(5). The Department will further instruct Customs to refund with interest any estimated duties collected with respect to unliquidated entries of high-tenacity rayon filament yarn entered, or withdrawn from warehouse, for consumption on or after June 1, 1995, in accordance with section 778 of the Act.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This changed circumstances administrative review, revocation of the antidumping duty order, and notice are in accordance with sections 751 (b) and (d) and 782(h) of the Act and sections 353.22(f) and 353.25(d) of the Department's regulations.

Dated: May 22, 1997.

Robert S. LaRussa,

Acting Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 052297B]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposal to amend incidental take permits 908 (P503K) and 844 (P503I).

SUMMARY: Notice is hereby given that, consequential to the issuance of modification 8 to permit 795, NMFS proposes to amend two permits issued to the Idaho Department of Fish and Game in Boise, ID (IDFG) that authorize incidental takes of endangered and threatened species associated with non-listed fish stocking and sport-fishing activities in the State of Idaho.

DATES: Written comments or requests for a public hearing on this proposal must be received on or before June 30, 1997.

ADDRESSES: The related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR3, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Environmental and Technical Services Division, 525 NE Oregon Street, Suite 500, Portland, OR 97232-4169 (503-230-5400).

Written comments or requests for a public hearing should be submitted to the Chief, Environmental and Technical Services Division, Portland.

SUPPLEMENTARY INFORMATION: The amendment of incidental take permits 908 and 844 is under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217-227).

On May 21, 1997, NMFS issued modification 8 to IDFG's scientific research/enhancement permit 795 (see notice of issuance published elsewhere in this **Federal Register** volume).

Permit 795 authorizes IDFG takes of adult and juvenile, endangered, Snake River sockeye salmon (*Oncorhynchus*

nerka) associated with a captive propagation program. For modification 8 to the permit, IDFG is authorized to release juvenile, artificially-propagated, Snake River sockeye salmon from its captive propagation program into Alturas Lake in 1997.

Permit 908 (P503K) authorizes an annual incidental take of adult and juvenile, endangered, Snake River sockeye salmon and adult and juvenile, threatened, Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) associated with IDFG's resident fish-stocking program, designed to increase the supply of fish in the Salmon River and its tributary streams and lakes for sport-angling. Consequential to the issuance of modification 8 to permit 795, NMFS proposes to amend IDFG's incidental take permit 908 to authorize IDFG an annual take of juvenile, endangered, artificially-propagated, Snake River sockeye salmon in Alturas Lake associated with the continuation of rainbow trout stocking in the lake. The amendment of permit 908 is proposed to be valid for the duration of the permit. Permit 908 expires on December 31, 1998.

Permit 844 (P503I) authorizes IDFG an incidental take of adult and juvenile, threatened, Snake River spring/summer chinook salmon and adult, threatened, Snake River fall chinook salmon (*Oncorhynchus tshawytscha*) associated with the State of Idaho's sport-fishing activities. Consequential to the issuance of modification 8 to permit 795, NMFS proposes to amend IDFG's incidental take permit 844 to authorize IDFG an annual take of juvenile, endangered, artificially-propagated, Snake River sockeye salmon in Alturas Lake associated with the continuation of rainbow trout and kokanee sport fisheries in Alturas Lake. The amendment of permit 844 is proposed to be valid for the duration of the permit. Permit 844 expires on April 30, 1998.

Those individuals requesting a hearing on either of the proposed permit amendments should set out the specific reasons why a hearing would be appropriate (see ADDRESSES). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the above summaries do not necessarily reflect the views of NMFS.

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of modification 8 to permit 795 (P503A).

SUMMARY: Notice is hereby given that NMFS has issued a modification to a permit to the Idaho Department of Fish and Game at Boise, ID (IDFG) that authorizes takes of Endangered Species Act-listed species for the purpose of scientific research/enhancement, subject to certain conditions set forth therein.

ADDRESSES: The application and related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR3, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Environmental and Technical Services Division, 525 NE Oregon Street, Suite 500, Portland, OR 97232-4169 (503-230-5400).

SUPPLEMENTARY INFORMATION: The modification to a permit was issued under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217-222).

Notice was published on February 28, 1997 (62 FR 9179) and April 8, 1997 (62 FR 16892) that an application had been filed by IDFG (P503A) for modification 8 to scientific research/enhancement permit 795. Modification 8 to permit 795 was issued to IDFG on May 21, 1997. Permit 795 authorizes IDFG takes of adult and juvenile, endangered, Snake River sockeye salmon (*Oncorhynchus nerka*) associated with a captive propagation program. For modification 8 to the permit, IDFG is authorized to release juvenile, artificially-propagated, Snake River sockeye salmon from its captive propagation program into Alturas Lake in 1997. Using a third lake for juvenile

sockeye salmon releases will help offset stocking limitations brought on by the natural variability of zooplankton abundance and species composition, and increase the viability of the program by providing additional spawning and rearing habitat. Permit 795 is also extended to expire on December 31, 1997. Modification 8 to permit 795 is valid for the duration of the permit.

Issuance of the permit modification, as required by the ESA, was based on a finding that the modification: (1) Was requested/proposed in good faith, (2) will not operate to the disadvantage of the ESA-listed species that is the subject of the permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA and the NMFS regulations governing ESA-listed species permits.
