#### SUPPLEMENTARY INFORMATION:

*OMB Approval Number:* 3060-XXXX.

*Title:* Long Form Application for Authorization in the Actionable Services.

*Form No.:* FCC 601.

*Type of Review:* New Collection.

*Respondents:* Individuals or households; Business or other for-profit; Not-for-profit institutions; Farms; Federal Government; State, Local or Tribal Government.

*Number of Respondents:* 43,719.

*Estimated Time Per Response:* 2 hours.

*Total Annual Burden:* 87,438 hours.

*Needs and Uses:* FCC 601 will be used as the general application (long form) by winners of FCC auctions, such as 800 MHz, 220 MHz, LMDS, Paging, IVDS and 39 GHz. While the Commission is currently seeking approval only for the forementioned purpose, the Commission also anticipates continued use of FCC 601 for future auctions (market-based licensing) yet to be decided, as well as eventually expanding the uses of the form to replace other existing FCC forms licensing various radio services (site-by-site licensing).

This long form application is a consolidated application form and will

be utilized as part of the Universal Licensing System currently under development. The goal of producing a consolidated form is to create a form with a consistent "look and feel" that maximizes the collection of data and minimizes narrative responses, free-form attachment, and free-form letter requests. A consolidated application form will allow common fields, questions, and statements to reside in one place and allow the technical data specific to each service to be captured in its own form or schedule.

FCC 601 will consist of a Main Form containing administrative information and a series of Schedules used to file technical information. Auction winning respondents will be required to submit FCC 601 electronically. There are no application fees, electronic filing fees or frequency coordination costs associated with filing of this form by auction winning respondents.

The data collected on this form includes the applicant's Taxpayer Identification Number. Use of Taxpayer Identification Number in the Universal Licensing System will allow pre-filing of data by searching the database and displaying all pertinent data associated to a given TIN, as well as for Debt Collection purposes. It will also improve and lessen the burden of the volume of data the public would have to enter for later filings.
