Agency Information Collection Activities: Submission for OMB Review; Comment Request; Public Water Systems Supervision Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Public Water Systems Supervision Program, OMB Control Number 2040-0090, which expires on September 30, 1997. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before September 11, 1997.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 0270.38.

SUPPLEMENTARY INFORMATION:

Title: Public Water Systems Supervision Program (OMB Control No. 2040-0090; EPA ICR No. 0270.38) expiring 9/30 /97. This is a request for extension of a currently approved collection.

Abstract: This ICR contains record keeping and reporting requirements that are mandatory for compliance with 40 CFR parts 141 and 142. Sections 1401 and 1412 of the Safe Drinking Water Act (SDWA), as amended, require EPA to establish National Primary Drinking Water Regulations (NPDWRs) that ensure the safety of drinking water. These regulations guarantee that exposure to contaminants—microbial, organic and inorganic chemicals, and radionuclides in finished drinking water is below the level established by human health risk assessments. The Act further requires EPA to ensure compliance with and enforce these regulations. Section 1445 of SDWA stipulates that every

supplier of water shall conduct monitoring, maintain records, and provide such information as is needed for the Agency to carry out its compliance and enforcement responsibilities with respect to SDWA. Implementation of these requirements is principally a responsibility of the States, particularly the 49 States that have assumed primary enforcement responsibility (primacy) for public water systems under SDWA section 1413. As part of the Public Water Systems Supervision Program, the Agency's Safe Drinking Water Information System (SDWIS) collect data from the States on public water systems regulated by EPA. Data include the public water system inventory, violations, and Federal and State enforcement actions. Without comprehensive, up-to-date information on drinking water contamination, the Agency would not be able to ensure "a supply of drinking water which dependably complies with such maximum contaminant levels" (SDWA, section 1401(1)(d)).

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on March 31, 1997; no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2.7 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/operators of Public Water Systems, Primacy agents who report to EPA Headquarters.

Estimated Number of Respondents: 173,317.

Frequency of Response: varies from weekly to biannually.

Estimated Total Annual Hour Burden: 11.3 million hours.

Estimated Total Annualized Cost Burden: \$204.7 million.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses.
