DEPARTMENT OF DEFENSE**Corps of Engineers, Department of the Army****Deauthorization of Water Resources Projects**

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Changes to conditions for project deauthorization; deauthorization of selected projects; and correction of project deauthorization list.

SUMMARY: The Corps of Engineers is publishing notice of (1) changes to conditions for project deauthorization, enacted in the Water Resources Development Act of 1996, Pub. L. 104-303; (2) the deauthorization of the Burlington Dam, North Dakota, project and the Lake Darling pool raise unit of the Souris River, North Dakota, project; and (3) a second correction to the list of "Projects Deauthorized on November 29, 1995, by Section 1001(a) of Pub. L. 99-662."

FOR FURTHER INFORMATION CONTACT: Mr. John A. Micik, Headquarters, U.S. Army Corps of Engineers, Attention: CECW-BA, Washington, D.C. 20314-1000. Tel. (202) 761-0705.

SUPPLEMENTARY INFORMATION:**Conditions for Project Deauthorization**

Section 228 of the Water Resources Development Act of 1996, Pub. L. 104-303, dated October 12, 1996, changes the conditions for project deauthorization.

Projects and separable elements of projects will be biennially reported to Congress as eligible for deauthorization after 7 full fiscal years have passed without Federal funds having been obligated. Section 1001(b)(2) of the Water Resources Development Act of 1986, Pub. L. 99-662, 33 U.S.C. 579a(b)(2), originally specified 10 full fiscal years. The five-year sunset provision of § 1001(a), Pub. L. 99-662, 33 U.S.C. 579a(a), is no longer in effect.

The statutory notifications of affected U.S. Senators and Members of the U.S. House of Representatives will be made upon transmittal of the biennial eligibility list to the President of the Senate and the Speaker of the House. Section 1001(b)(2), Pub. L. 99-662, originally required notifications before transmittal of the eligibility list. The change allows the notifications to specify the calendar date when the listed projects will be deauthorized, which is 30 months from the transmittal date.

Project deauthorization eligibility under § 1001(b)(2), Pub. L. 99-662, as amended, includes projects authorized for preconstruction planning, engineering and design only. Previously, only projects fully authorized for construction fell within the purview of § 1001(b)(2). The change does not affect the deauthorization of water resources studies under the provisions of § 710, Pub. L. 99-662, 33 U.S.C. 2264.

Deauthorizations

Section 1124 of Pub. L. 99-662 provided for the automatic deauthorization of the Burlington Dam, North Dakota, project, and the Lake Darling pool raise unit of the Souris River, North Dakota, project upon completion of the Rafferty and Alameda reservoir projects in Canada. The projects were cooperative efforts between the United States and Canada. The Rafferty and Alameda projects were certified as complete and 100 percent operable on March 10, 1995; therefore, the Burlington Dam, North Dakota, project and the Lake Darling pool raise unit of the Souris River, North Dakota, project were deauthorized on March 10, 1995.

Corrected List

On the list of "Projects Deauthorized on November 29, 1995, by Section 1001(a) of Pub. L. 99-662 (Corrected List)," published in the **Federal Register** on January 22, 1997, (Vol. 62, No. 14, 3271), the East Fork of Trinity River, Texas, project should not have been listed since planning funds were obligated on the project prior to
