

Section 22 provides that contracts for the sale and delivery of power for periods extending beyond the termination date of a license may be entered into upon the joint approval of the Commission and the appropriate state public service commission or other similar authority in the state in which the sale or delivery of power is made. Grant states in its application that approval of the CEAA is in the public interest because it implements provisions of a 1961 Treaty between the United States and Canada, 15 U.S.T. 1555.

The CEAA was executed on April 29, 1997, between Grant and the United States of America, acting by and through the Bonneville Power Administration, and provides for the delivery of power from the Priest Rapids Project for transfer to Canada in exchange for Grant's use of the improved streamflow provided by Canadian water storage projects pursuant to the 1961 Treaty. Grant will retain one-half of the power generation benefits of the improved streamflow.

Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR 385.210, 385.211 and 385.214. In determining the appropriate action to take, the Commission will consider all protests and other comments, but only those who file a motion to intervene may become a party to the proceeding. Comments, protests, or motions to intervene must be filed by September 17, 1997; must bear in all capital letters the title "COMMENTS," "PROTEST," or "MOTION TO INTERVENE," as applicable and "Project No. 2114." Send the filings (original and 14 copies) to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.
