

agreement. The Administration expects that the Agreement will be a treaty, which will be submitted to the Senate for advice and consent necessary for ratification, and that certain changes would need to be made to Section 12 of the Toxic Substances Control Act and Section 17 of the Federal Insecticide, Fungicide and Rodenticide Act to meet an obligation to ensure that exports of PIC-listed chemicals do not occur contrary to decisions regarding those chemicals by importing countries.

In the negotiations, other countries have made proposals which would make eligible a somewhat broader range of chemicals than under the voluntary guidelines, and which would include information exchange provisions which, if accepted, could require other changes to TSCA and FIFRA, as well as the Federal Hazardous Substances Act. In particular, there are proposals to include provisions requiring notifications for exports of chemicals which are banned or severely restricted under national law (Article 11 of the proposed text), as well as certain proposals regarding labeling and material safety data sheets for chemicals (Article 12 of the proposed text).

The Department of State is issuing this notice to help ensure that potentially affected parties are aware of and knowledgeable about the parameters of these negotiations. In the future, we will be contacting interested organizations about planned briefings by mail or fax. Those organizations which cannot attend the meeting, but wish to remain informed, should provide Mr. Trigg Talley of the Department of State with their address, telephone and fax numbers.
