

pertinent part, (H) of the LWA. The Secretary of Energy was notified of the determination via letter from EPA Administrator Carol M. Browner dated August 14, 1997.

This determination was made under the authority of Section 9 of the amended WIPP Land Withdrawal Act. (Pub. L. Nos. 102-579 and 104-201.) Section 9 requires the Administrator of EPA to determine on a biennial basis, following the submittal of documentation of compliance by the Secretary of DOE, whether the WIPP is in compliance with EPA's standards for the management and storage of radioactive waste (40 CFR part 191, subpart A), the Clean Air Act, the Safe Drinking Water Act, the Toxic Substances Control Act, the Comprehensive Environmental Response, Compensation, and Liability Act, and all other applicable Federal laws protecting public health and safety or the environment. This determination applies to WIPP's compliance with these laws during the period October 1992 to October 1994.

This determination is not directly related to, nor is it a part of, EPA's certification decision regarding whether the WIPP complies with the disposal standards for transuranic radioactive waste (40 CFR part 191). The certification decision will be accomplished through a separate rulemaking pursuant to the standards and procedures mandated by section 553 of the Administrative Procedure Act, and in accordance with EPA's WIPP compliance certification criteria regulations at 40 CFR part 194. (61 FR 58499, November 15, 1996.)
