RIN 2115-AE46

Special Local Regulation; Clifton River Days, Tennessee River Mile 158 to 160, Clifton, Tennessee

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: A temporary special local regulation is being adopted for the Clifton River Days. This event will be held on August 24, 1997 from 9 a.m. until 5 p.m. at the river front in Clifton, Tennessee. This regulation is needed to provide for the safety of life on navigable waters during the event.

EFFECTIVE DATE: This temporary regulation is effective from 9 a.m. until 5 p.m. on August 24, 1997.

FOR FURTHER INFORMATION CONTACT: LTJG Tom Tarrants, Marine Safety Office, Paducah, KY, Tel: (502) 442-1621.

SUPPLEMENTARY INFORMATION:**Regulatory History**

In accordance with 5 U.S.C. 553, a notice of proposed rulemaking for this regulation has not been published, and good cause exists for making them effective in less than 30 days from the date of publication. Following normal rulemaking procedures would have been impracticable. The details of the event were not finalized until July 24, 1997, and there was not sufficient time remaining to publish a proposed rule in advance of the event or to provide for a delayed effective date.

Background and Purpose

The marine event requiring this regulation includes boat drag races on the river. The event is sponsored by the Wayne County Jaycees. Spectators will be able to view the event from areas designated by the sponsor. Non-participating vessels will be able to transit the area after each race has ended.

Regulatory Evaluation

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has not been reviewed by the Office of Management and Budget under that order. It is not significant under the regulatory policies and procedures of

the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of this rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary because of the event's short duration.

Small Entities

The Coast Guard finds that the impact on small entities, if any, is not substantial. Therefore, the Coast Guard certifies under section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) that this temporary rule will not have a significant economic impact on a substantial number of small entities because of the event's short duration.

Collection of Information

This rule contains no information collection requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism Assessment

The Coast Guard has analyzed this action in accordance with the principles and criteria of Executive Order 12612 and has determined that this rule does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environmental Assessment

The Coast Guard considered the environmental impact of this rule and concluded that under section 2.B.2.C. of Commandant Instruction M16475.1B (as revised by 61 FR 13563; March 27, 1996), this rule is categorically excluded from further environmental documentation.

OMB Approval Numbers Under the Paperwork Reduction Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this technical amendment amends the table that lists the Office of Management and Budget (OMB) control numbers issued under the PRA for Environmental Impact Assessment of Nongovernmental Activities in Antarctica.

EFFECTIVE DATE: This final rule is effective August 21, 1997.

FOR FURTHER INFORMATION CONTACT: Joseph Montgomery or Katherine Biggs, Office of Federal Activities (2252A), U.S. Environmental Protection Agency,

401 M Street, S.W., Washington, D.C. 20460; telephone: (202) 564-7157 or (202) 564-7144, respectively.

SUPPLEMENTARY INFORMATION: EPA is today amending the table of currently approved information collection request (ICR) control numbers issued by OMB for various regulations. Today's amendment updates the table to list those information requirements promulgated under the PRA for Environmental Impact Assessment of Nongovernmental Activities in Antarctica which appeared in the **Federal Register** on April 30, 1997 (62 FR 23538-23549). The affected regulations are codified at title 40 of the Code of Federal Regulations (CFR), part 8. EPA will continue to present OMB control numbers in a consolidated table format to be codified in 40 CFR part 9 of the Agency's regulations, and in each CFR volume containing EPA regulations. The table lists the section numbers with reporting and recordkeeping requirements, and the current OMB control numbers. This listing of the OMB control numbers and their subsequent codification in the CFR satisfy the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) and OMB's implementing regulations at 5 CFR part 1320.

Because of the importance of facilitating the prompt entry into force of Protocol on Environmental Protection to the Antarctic Treaty, EPA stated in its Preamble to the final rule that it believed it had good cause under 5 U.S.C. 553(b)(B) to find that implementation of notice and comment procedures for the interim final rule would be contrary to the public interest and unnecessary. For these reasons, the interim final regulations were issued without notice and an opportunity to comment. In addition, for the same reasons, under 5 U.S.C. 553(d)(3), the interim final regulations took effect immediately upon publication. As a result, EPA finds that there is "good cause" under section 553(b)(B) of the Administrative Procedure Act (5 U.S.C. 553(b)(B)) to amend this table without prior notice and comment. Due to the technical nature of the table, further notice and comment would be unnecessary.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is approving a State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania. This revision establishes and requires volatile organic compounds (VOC) and nitrogen oxides (NO_x) reasonably available control technology (RACT) on two major

sources located in Pennsylvania. The intended effect of this action is to approve source-specific operating permits that establish the above-mentioned RACT requirements in accordance with the Clean Air Act. This action is being taken under section 110 of the Clean Air Act.

DATES: This action is effective October 20, 1997 unless notice is received on or before September 22, 1997 that adverse or critical comments will be submitted. If the effective date is delayed, timely notice will be published in the **Federal Register**.

ADDRESSES: Comments may be mailed to David J. SUPPLEMENTARY INFORMATION: On January 10, 1996 and September 13, 1996, the Commonwealth of Pennsylvania submitted formal revisions to its State Implementation Plan (SIP). Each source subject to this rulemaking will be identified and discussed below. Any plan approvals and operating permits submitted coincidentally with those being approved in this document, and not identified below, will be addressed in a separate rulemaking action.

Pursuant to sections 182(b)(2) and 182(f) of the Clean Air Act (CAA), Pennsylvania is required to implement RACT for all major VOC and NO_x sources by no later than May 31, 1995. The major source size is determined by its location, the classification of that area and whether it is located in the ozone transport region (OTR), which is established by the CAA. The
