#### **Regulatory Analysis**

Under the Regulatory Flexibility Act, 5 U.S.C. 600 et seq., EPA must prepare a Regulatory Flexibility Analysis assessing the impact of any proposed or final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-forprofit enterprises, and government entities with jurisdiction over populations of less than 50,000.

This rulemaking applies only to two large sources of air emissions used to generate electrical power on Guam. These sources of electrical power will be constructed by an independent power producer which is not a small entity. Therefore, this rulemaking will not impact small entities.

This action has been classified as a Table 3 action for signature by the Administrator under the procedures published in the **Federal Register** on January 19, 1989 (54 FR 2214–2225). The Office of Management and Budget has exempted this regulatory action from Executive Order 12866 review.
