THE PRESIDENT'S COUNCIL ON SUSTAINABLE DEVELOPMENT

The Fifteenth Meeting of the President's Council on Sustainable Development (PCSD) in Tulsa, Oklahoma

SUMMARY: The President's Council on Sustainable Development (PCSD), a Presidential Commission with representation from industry, government, and environmental, labor, and Native American organizations will convene its fifteenth meeting in Tulsa, Oklahoma on Monday, September 22, 1997.

At the Council's last meeting on April 29, 1997, members discussed their workplan under a revised charter approved by the Administration on April 25, 1997. In the new charter, the Administration asked the Council to continue its work by continuing to forge consensus on policy, demonstrating implementation, getting the word out about sustainable development, and evaluating progress. The Council will advise the President in four specific areas: domestic implementation of policy options to reduce greenhouse gas emissions, next steps in building the new environmental management system of the 21st century, promoting multi-jurisdictional and community cooperation in metropolitan and rural areas, and policies that foster U.S. leadership role in sustainable development internationally.

At the meeting, the Council will focus on domestic policy options to reduce greenhouse gas emissions and will hear from a series of experts in the field. The discussion will address the following agenda items:

- the science of climate change,

- technology options and opportunities,
- importance of the assumptions in estimating the benefits and costs of greenhouse gas emissions, and
- international, national and local policy options.

Public comment period: The Council will seek public comment on potential council activities to implement the Administration's directive. Specifically, the Council is interested in hearing from the public on the following questions:

- What principles/policies should the Council recommend to the President as the United States enters negotiation on an international Climate Change treaty?
- Are there unique local opportunities in Oklahoma and surrounding regions to reduce greenhouse gas emissions?

The Council's previous recommendations to the President may be found in two reports:

Sustainable America: A New Consensus for Prosperity, Opportunity, and a Healthy Environment for the Future (March 1996) and *Building on Consensus: A Progress Report on Sustainable America (January 1997)*.
