NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-361 and 50-362]

Southern California Edison Company, et al. San Onofre Nuclear Generating Station; Receipt of Petition for Director's Decision Under 10 CFR 2.206

Notice is hereby given that by letter dated June 23, 1997, Patricia Borchmann (Petitioner) requested that in accordance with 10 CFR 2.206, the U.S. Nuclear Regulatory Commission (Commission or NRC) not allow San Onofre Nuclear Generating Station (SONGS) Unit 3 to restart from its current refueling outage until her concerns were fully resolved. This letter was supplemented by letters dated June 28 and July 11, 1997, in which the Petitioner requested the staff to take the same action for SONGS Unit 2. On July 8, 1997, the NRC verbally notified the petitioner that the issues discussed in the submittals did not contain enough information to warrant the NRC taking action to prevent the SONGS units from restarting. By NRC letter dated September 22, 1997, the NRC denied the Petitioner's requests that the NRC take immediate action to not allow SONGS Units 2 and 3 to restart.

The Petitioner's letters contained a variety of issues in support of the requested actions, which the staff grouped into three categories for the purpose of evaluating the request for immediate action. These categories are fully described in the NRC's letter of September 22, 1997, denying the Petitioner's request.

As a result of its evaluation detailed in its letter of September 22, 1997, the NRC staff found that there was insufficient basis to warrant the immediate action requested to prevent SONGS Units 2 and 3 from restarting. Therefore, the request for immediate action was denied. As provided by 10 CFR 2.206, appropriate action will be taken with regard to the concerns raised by the Petitioner within a reasonable time.

A copy of the Petition is available for inspection in the Commission's Public

Document Room at 2120 L Street, NW, Washington, DC 20555-0001, and the Local Public Document Room at the Main Library, University of California, P.O. Box 19557, Irvine, CA 92713.

Dated at Rockville, Maryland, this 22nd day of September 1997.

For The Nuclear Regulatory Commission.

Samuel J. Collins,

Director, Office of Nuclear Reactor Regulation.
