DEPARTMENT OF THE INTERIOR

Privacy Act of 1974—Notice of Establishment of System of Records

Pursuant to the provisions of the Privacy Act of 1974, as amended (5 U.S.C. 552a), notice is hereby given that the Department of the Interior proposes to establish a new system of records to be maintained by the Interior Service

Center. The system, entitled "Computerized ID Security System—Interior, OS-01," will include information pertaining to Departmental employees and other individuals who have had access to the Main and South Interior Buildings. The information contained in this system will be used for the purpose of operating and maintaining a computerized security access-card system. The system will enhance the security of the Main and South Interior Buildings, while enabling the Department to assure the safety of building occupants in the event of an emergency. Individuals entering or leaving the Main or South Interior Buildings will be required to scan a computerized identification (ID) card,

equipped with a magnetic device, through a card reading device. The device will identify the card holder based on personal information encoded on the card, and will either authorize entry or deny access to the building in question.

The potential impact on the privacy of individuals covered by the system will be minimal. Data pertaining to the date and time of entry and exit of an Interior employee will not be disclosed to supervisors, managers, or any other persons (other than the individual to whom the information applies) to verify time and attendance records for personnel-related purposes because 5 U.S.C. 6106 prohibits Federal Executive agencies (other than the Bureau of

Engraving and Printing) from using a "recording clock" within the District of Columbia, unless used as part of a flexible schedule program under 5 U.S.C. 6120 et seq. Unless retained for specific ongoing security or safety investigations, records related to date and times of exit and entry of all individuals covered by the system will be retained for a period of no longer than 2 years.

The notice is published in its entirety below.

As required by the Privacy Act of 1974, as amended (5 U.S.C. 552a(r)), the Office of Management and Budget, the Senate Committee on Governmental Affairs, and the House Committee on Government Operations have been notified of this action.

5 U.S.C. 552a(e)(11) requires that the public be provided a 30-day period in which to comment on the intended use of the information in the system of records. The Office of Management and Budget, in its Circular A-130, requires an additional 10-day period (for a total of 40 days) in which to make these comments. Written comments on this proposal can be addressed to the Office of the Secretary Privacy Act Officer, Interior Service Center, 1849 "C" Street NW, Mail Stop 1414 MIB, Washington, DC 20240, telephone (202) 208-6045, e-mail Sue_Ellen_Sloca@ios.doi.gov. Comments received within 40 days of publication in the **Federal Register** will be considered. The system will be effective as proposed at the end of the comment period, unless comments are received which would require a contrary determination.

Dated: September 30, 1997.

Tim Vigotsky,

Director, Interior Service Center.
