**SUPPLEMENTARY INFORMATION:**

**Background**

The Occupational Safety and Health Administration (OSHA) will be requesting approval from the Office of Management and Budget (OMB) for certain information collection requirements contained in the Voluntary Protection Programs requirements. This notice initiates the process for OSHA to request an OMB approval.

As part of OMB's and OSHA's continuing paperwork reduction effort, OSHA seeks to reduce that paperwork burden hours in the Voluntary Protection Program based on input from parties interested in the regulatory scope of that regulation. The purpose of this notice is to solicit public comment on OSHA's paperwork burden estimates from those interested parties and to seek public response to several questions related to the development of OSHA's estimates. Interested parties are requested to review OSHA's estimates, which are based on information from historical program data, to comment on their accuracy or appropriateness in today's workplace situation. OSHA bases its existing estimates upon information from participants of the Voluntary Protection Programs and is interested in learning whether they are outdated.

**Current Action**

This notice requests a PRA approval from OMB for the paperwork required for participation in the Voluntary Protection Programs. In order to determine if an applicant worksite meets VPP requirements, i.e., has a safety and health program that provides effective worker safety and health protection, OSHA must receive an application that describes the program in detail.

- Applications:* 18,000 hours per year.
  - Type of Review:* New Approval.
  - Agency:* Occupational Safety and Health Administration, U.S. Department of Labor.
  - Title:* Voluntary Protection Programs.
  - OMB Number:* No number assigned.
  - Agency Number:* Docket No. ICR-97-18.
  - Frequency:* On Occasion.
  - Affected Public:* Business.
  - Number of Respondents:* 90-100 per year.
  - Estimated Time Per Respondent:* 200 hours.
  - Total Burden Hours:* 18,000.
- Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.
- Signed this 22nd day of August, 1997.
- Paula O. White,**  
*Director, Directorate of Federal-State Operations.*

These grants and contracts will be awarded under the authority conferred on LSC by the Legal Services Corporation Act, as amended (42 U.S.C. 2996e(a)(1)). Awards will be made so that each service area indicated is served by one of the organizations listed above, although none of the listed organizations are guaranteed an award or contract. This public notice is issued pursuant to the LSC Act (42 U.S.C. 2996f(f)), with a request for comments and recommendations concerning the potential grantees within a period of thirty (30) days from the date of publication of this notice. Grants will become effective and grant funds will be distributed on or about January 1, 1998.

Dated: October 1, 1997.

BILLING CODE 7050-01-P

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-003 and 50-247]

### Consolidated Edison Company of New York, Inc. (Indian Point Nuclear Generating Unit Nos. 1 and 2); Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering approval under 10 CFR 50.80, by issuance of an Order, the transfer of control of Facility Operating License Nos. DPR-5 and DPR-26, for the Indian Point Nuclear Generating Units No. 1 (IP1) and No. 2 (IP2),

located in Westchester County, New York, to the extent such transfer would be affected by the proposed corporate reorganization of Consolidated Edison Company of New York, Inc. (Con Ed, the licensee), holder of the licenses.

#### Environmental Assessment

##### *Identification of the Proposed Action*

The proposed action would consent to the transfer of control of the licenses, to the extent affected by the reorganization of Con Ed by establishment of a holding company. Con Ed would become a wholly-owned subsidiary of the holding company and would continue to be the licensee for IP1 and IP2. The proposed action is in accordance with Con Ed's application dated December 24, 1996.

##### *The Need for the Proposed Action*

The proposed action is needed to the extent the proposed reorganization of Con Ed will effect a transfer of control of the licenses. Con Ed has submitted that the proposed restructuring will enable it to better prepare to implement changes resulting from electric industry restructuring, and will enhance the insulation of Con Ed's nuclear utility business from business risks associated with non-nuclear enterprises.

##### *Environmental Impacts of the Proposed Action*

The Commission has completed its evaluation of the proposed corporate restructuring and concludes that there will be no physical or operational changes to IP1 and IP2. The corporate restructuring will not affect the qualifications or organizational affiliation of the personnel who operate

or maintain the facility, as Con Ed will continue to be responsible for the operation of IP2 and the maintenance and possession of IP1, which is permanently shut down.

The Commission has evaluated the environmental impact of the proposed action and had determined that the probability or consequences of accidents would not be increased by the proposed action, and that post-accident radiological releases would not be greater than previously determined. Further, the Commission has determined that the proposed action would not affect routine radiological exposure. Accordingly, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action would not affect nonradiological plant effluents and would have no other environmental impact. Therefore, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed action.

##### *Alternatives to the Proposed Action*

Since the Commission concluded that there are not significant environmental effects that would result from the proposed action, any alternative with equal or greater environmental impacts need not be evaluated.

The principal alternative would be to deny the requested action. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed
