**I. Background**

GTE, One Stamford Forum, Stamford, CT 06904, self-disclosed to EPA that it had failed to prepare SPCC plans for 89 facilities where it stored diesel oil, 88 with above ground and one with below ground tanks, in violation of the CWA and 40 CFR part 112. The disclosures were made pursuant to the EPA “Incentives for Self-Policing: Discovery, Disclosures, Correction and Prevention of Violations” (“the Audit Policy”) (60 FR 66706, December 22, 1995). EPA filed an administrative civil complaint against GTE on September 29, 1997 (in re: GTE Corporation, CWA-97-H-001). The administrative penalty proposed in the complaint is the statutory maximum, \$125,000. EPA intends to settle this action under the Audit Policy. Using the criteria set forth in the policy, EPA intends to waive any gravity based penalty and collect economic benefit enjoyed by the Respondent because of delayed compliance with the SPCC regulations. The proposed settlement figure for this matter is \$16,708. This settlement is subject to public notice and comment under CWA section 311 (33 U.S.C. 1321).

Under CWA section 311(b)(6) (33 U.S.C. 1321(b)(6)), any owner, operator, or person in charge of a vessel, onshore facility, or offshore facility from which oil is discharged in violation of CWA section 311(b)(3) (33 U.S.C. 1321(b)(3)), or who fails or refuses to comply with any regulations that have been issued under CWA section 311(j) (33 U.S.C. 1321(j)) may be administratively assessed a civil penalty of up to \$125,000 by EPA. Class II proceedings under CWA section 311(b)(6) are conducted in accordance with 40 CFR part 22 rules.
