

(3) National Clearinghouse on Runaway and Homeless Youth

In Fiscal Year 1997, the Family and Youth Services Bureau awarded a five year contract to support a National Clearinghouse on Youth and Families (NCFY). The purpose of the Clearinghouse is to disseminate information to professionals and agencies involved in youth development efforts and/or the delivery of direct services to runaway, homeless and at-risk youth. The Clearinghouse collects, maintains and disseminates reports and other materials, identifies areas in which new or additional information is needed, and develops documents and materials relevant to FYSB's mission and the needs of the field. Non-competitive continuation funding will be awarded to the Clearinghouse in Fiscal Year 1998.

(4) Runaway and Homeless Youth Management Information System (RHYMIS)

In Fiscal Year 1997, the Family and Youth Services Bureau awarded a three year contract for continued development and implementation of the Runaway and Homeless Youth Management Information System (RHYMIS) for FYSB programs. The data generated by the system are used to produce reports and information regarding FYSB's programs, including information for required reports to Congress. In Fiscal Year 1998 this effort will receive non-competitive continuation funding.

(5) Monitoring Support for FYSB Programs

The Family and Youth Services Bureau uses a comprehensive monitoring instrument and site visit protocols, including a peer-review component for monitoring runaway and homeless youth programs. In Fiscal Year 1997, the Family and Youth Services Bureau awarded a three year contract to provide logistical support for peer review monitoring. In Fiscal Year 1998, this contract will receive non-competitive continuation funding.

6. Conference Logistics and Management Support Contract

In Fiscal Year 1995, the Family and Youth Services Bureau awarded a twelve-month contract, with two option years, for logistics and management support. The purpose of the contract is to promote FYSB's comprehensive youth development message by making the arrangements necessary to assemble FYSB's grantees, youth development experts and other youth service providers at meetings, conferences,

workshops and forums. In Fiscal Year 1998, the second year option will be funded to continue this effort.

7. Research Demonstration and Management Initiatives

Section 315 of the Act authorizes the Department to award funds to States, localities, and private entities to carry out research, demonstration, and service projects designed to increase knowledge concerning, and to improve services for, runaway and homeless youth. These activities identify emerging issues and develop and test models which address such issues.

During Fiscal Year 1998, the Family and Youth Services Bureau will continue to:

Support a youth development approach to the provision of services, both from theoretical and practical perspectives;

Pursue the development of youth development performance based indicators and outcome measures as a method of evaluating the effectiveness of youth services;

Explore the potential for successful collaborations among federal government agencies, state governments and local community based youth services organizations, including the funding of possible pilot demonstration efforts;

Continue to work in partnership with Regional Offices around the review and assessment of grant applications and the development and implementation of FYSB program efforts, and

Continue to make sure that funding for programs will occur in a timely manner by publishing this Notice, as well as the final priorities in the **Federal Register**, as early in the Fiscal Year as possible.

We welcome specific comments and suggestions on these proposed program priorities.

SUPPLEMENTARY INFORMATION:

Background

The Service adopted guidelines on September 21, 1983 (48 FR 43098), that govern the assignment of priorities to species under consideration for listing as endangered or threatened under section 4 of the Act. The Service adopted those guidelines to establish a rational system for allocating available appropriations to the highest priority species when adding species to the lists of endangered or threatened wildlife and plants or reclassifying threatened species to endangered status. The system places greatest importance on the immediacy and magnitude of threats, but also factors in the level of taxonomic distinctiveness by assigning priority in descending order to monotypic genera, full species, and subspecies (or equivalently, distinct population segments of vertebrates). However, this system does not provide for prioritization among different listing actions such as preliminary determinations, proposed listings, and final listings.

The enactment of Pub. L. 104-6 in April, 1995, rescinded \$1.5 million from the Service's budget for carrying out listing activities through the remainder of FY 1995. Pub. L. 104-6 prohibited the expenditure of the remaining appropriated funds for final determinations to list species or designate critical habitat which, in effect, placed a moratorium on those activities. The net effect of the moratorium and reductions in funding was that the Service's listing program was essentially shut down. The moratorium on final listings and the budget constraints remained in effect until April 26, 1996, when President Clinton approved the Omnibus Budget Reconciliation Act of 1996 and exercised the authority that the Act gave him to waive the moratorium. At that time, the Service had accrued a backlog of proposed listings for 243 species. The extremely limited funding available to the Service for listing activities generally precluded petition processing and the development of proposed listings from October 1, 1995, through April 26, 1996.

When the moratorium was lifted and funds were appropriated for the administration of the listing program,
