Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the

Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Wilma Johnson, CDC Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Projects

1. Evaluation of Educational Brochures on Opportunistic Infections Affecting People with HIV/AIDS—New—The National Center for HIV, STD and TB Prevention, Division of HIV/AIDS Prevention, Intervention Research and Support proposes to conduct research to assure that intended audiences (persons living with HIV/AIDS) find the brochures clear, informative and useful. Specifically, the

research will examine perceptions of the appearance, quality, value, readability, and clarity of the information provided. Attention will be focused on identifying information, language and/or formatting issues which are confusing or unclear. Further, although the intended audience of the brochure series is all persons living with HIV/AIDS, we propose to use the limited resources available to target those who are lower income. This is warranted given their often more restricted access to reliable information sources, making the brochures a more valuable resource for them. In addition, the correlations between low socio-economic status (SES) and low literacy warrant attention to assuring the readability and comprehension of the materials among this group.

The information generated from this research will enable NCHSTP to tailor materials to the needs, wants and preferences of individuals living with HIV/AIDS. Additionally, the center is committed to developing a standardized process for including such audience testing in subsequent materials development projects. The proposed process will provide the foundation for establishing a standardized process for such assessment. There is no cost to respondents.

Respondents	No. of respondents	No. of responses/respondent	Average burden/response (in hrs.)	Total burden (in hrs.)
Individuals infected with HIV/AIDS	550	1	0.5	275
Total				275

Dated: October 17, 1997.
